## AMERICANS ENGAGE IN HEAVY FIGHTING

**Marines Make Two Successful Attacks in the Chateau Thierry Area—Infantry Slowly Driving the Germans Back This Morning—Artillery Fire Since Midnight.**

By Telegram to The Freeman.  
Washington, June 7.—(9 a. m.)—Severe fighting northwest of Chateau Thierry with Americans engaged was still continuing early today.

American Marines, who launched two successful attacks against the Germans yesterday, have gained all their objectives excepting at one point where they were held up by a nest of German machine guns in a small wooded position on the right of our attack, called Bois De Balloir.

The original plan of attack did not call for us to enter the village of Tilly, but the Marines swept on after reaching the Germans, entering the village and holding it.

The Germans made repeated counter attacks but were unable to retake the village.

The sharpest encounter in last night's fighting occurred at Bourches (13 miles south of Neuilly) and just northwest of Chateau Thierry. There the American Marines reached the edge of the village at dusk and swarmed in upon the German machine gun emplacements annihilating the Boche gunners. The Germans were bayoneted at their guns and others that attempted to make a stand in the streets were captured.

Numerous prisoners were taken. Late Thursday night the Germans made a sudden counter attack against the American infantry occupying positions to the right of the machine guns, forcing them to cede some ground at one point. Our men at once delivered a counter attack.

At dawn today (Friday), when the International News Service correspondent left the battlefield the American infantry was slowly driving the Germans back, despite a torrent of German shells that covered all the back area.

The Germans, at an early hour today, were confining themselves largely to "seventy-seven's" and "one hundred and sixty-five millimeters" gun shells.

Our batteries were replying with the liveliest fire on the whole line.

Since midnight the earth has been rocking with our gunfire and the very last concussion from exploding shells.

With the American Army at the Marne, June 6—(8 p. m.)—By a brilliant attack over a two and one-half mile front in the Neuilly sector of the Marne battle front the American Marines fighting alongside of the French extended their recent success in the same district by advancing three and one-half kilometers (approximately one and one-half miles). The Americans now hold all the high ground in the battle area northwest of Chateau Thierry.

The Americans fought with more than their old time gallantry, going over the top whistling Yankee Doodle.

All of the objectives were obtained by 7:45 o'clock this morning. Subsequently the day was marked by desultory skirmishing but late in the afternoon another strong attack was organized and at 5 o'clock the Americans again lunged forward against the Germans.

The doughboys gave the Germans a taste of the cold steel they will not forget in a hurry.

They pressed forward with such fury that the Germans were unable to withstand them and were completely routed. The Germans were driven like sheep from the crest of the high ground which was under attack.

Our men stopped at the foothills of a broad plateau overlooking a broad wheatfield where the Germans made futile counter attacks.

The second attack carried the Americans as far as the edge of the village of Corey, (15 miles north of Chateau Thierry). The Americans held positions overlooking and commanding the railway that runs through that zone.

The French attacked at the same time as the Americans and they also were successful.

Today's operations by the Franco-American forces reversed conditions in the Marne. The allies now have the upper hand and the situation, in a strategic sense, has been greatly improved.

An American general who talked with some of our wounded in a dressing station, said:

"It almost made me cry to see the blue and enthusiasm of these boys. They were as proud of their wounds as a bride is of her first baby. They smoked cigarettes and told each other how they had 'winged' in my instance they pleaded for a 'cure' to get back to the 'big doings' they called it."

Only do the Americans now hold the high ground of any im-

portance northwest of Chateau Thierry but they have stabilized and straightened their lines.

The French attack was delivered on the Americans' left, the poilus taking 150 prisoners.

The French were delighted at the work of the Americans.

German prisoners said they thought they were confronted by British. They were surprised to find Americans, whom they have grown to dread keenly.

The Marines have been confronted by three fresh German divisions in many days. First the Germans used Saxons troops but the doughboys slashed them up so badly that the enemy put in the Prussian Guards.

The next day the Americans turned loose again and the Guards were so demoralized that they were replaced by the cream of the Prussian troops, including Jaegers, the crack German riflemen. Today it was the turn of the Jaegers to "get theirs" and they did.

For several days previous to the big assault today the activities of the Marines had been confined to minor operations.

The attack today began at 3:45 a. m. when the Marines went forward with fixed bayonets. As the men rushed across the newly plowed fields against the German positions they whistled and sang like light hearted schoolboys. As they charged up the steep side of a hill they came under intense enemy fire from rifles and machine guns.

The glare of star shells, thrown up by German batteries, lighted up the sky. The weather was fine and clear.

One youngster who was wounded in both legs thus described the attack:

"We were ordered to go straight ahead whether we met machine gun fire or shells from 'Big Berthas' or anything else. Not a man hesitated. Our platoon was in the center and we got beyond the tanks so that we had to fight the Boches in the rear and in front and on both sides. But we licked them to a frazzle. Holy smoke, but the machine bullets whistled. You would think that the grass was full of rattlers."

Private John H. Marks of Thompson, Ark., a litter bearer who took part in the fighting in his peculiar way, paid high tribute to the fighting ability of the Marines. "We were in on the rush," said Marks. "Talk about football playing, say, our fellows gained a dozen yards every push and kept on going. My, but those buzzards from the navy, the Marines, shot. All they wanted to do was squat down and place away. I saw a lieutenant who was wounded keep on leading his men until he grew faint. He refused to go to a dressing station. He was hit a second time but stooped only long enough to put on a first aid bandage. He was wounded a third time before he went to the hospital. None of the wounds were serious. But there were lots like him. Our fellows just naturally took the wind out of the Germans and did not give them any chance to catch their breath. It was just like the fighting in the Civil War that I have read about. Charging in the open is a regular walk-away for us."

The morale of the German prisoners is very low. They are thin and emaciated and said they had not been fed in four days owing to the inability of the commissary to deliver food under the fire of American artillery and machine guns. Few of them were equipped with helmets, but all carried new gas masks.

Details continue to filter back about the fighting. As the Americans charged up the slope of the hilly ground they had to walk over the bodies of many dead French and German soldiers.

The earth shook with the thunder of the bombardment that accompanied the infantry fighting. Where the correspondents were stationed the whine of shells was plainly audible. The great projectiles described arcs overhead and there would be a dull crash as they landed and exploded in the German lines.

Swallows and pigeons in the farmyards, accustomed to the sound of battle, paid no attention to the racket.

The ground was scattered with rusty remnants of shells from the first battle of the Marne, nearly four years ago.

A thirty year old French woman, hearing that the Americans held her parents' farm, instead of the Germans, drove through the zone of fire to get a rag doll for her baby daughter and also some family trinkets and papers. She arrived in a two-wheeled cart, being the only woman to reach the battle zone. Guards held her up but she got by. When she arrived at the farm she rushed to the hen coop where she fed the chickens and then patted the family cow on the nose. She found American officers in the house talking at typewriters and telephones. French officers were dining in the barn. American and French soldiers were sleeping on straw in the cowshed. In the meanwhile shells were raining down on the fields nearby.

The woman picked some lettuce and June roses before she departed. The fragrance of roses and peonies, which are blooming thickly on the Marne battle front, is heavier than the odor of gunpowder.

We have become so familiar with the volume, intensity and feeble existence of noise that it never frightens us. We prophesied in the very beginning the downfall of Dillon, Bush and Fraser, and we declared the best of health just a present. This is a funny climate. We have seen very little sun shine; raining nearly all the time. This is one of the most ancient parts of France where we are just at present. It is no wonder the people like to come over here and look at the scenery. It is beautiful. This is all just at present, with lots of love and kisses, I remain as ever.

## BROKE OUT WITH MEASLES IN COURT

While Officials Were Discussing What to Do With Frank Everett in Judge Schirck's Private Office Startling Discovery Was Made.

Wednesday morning Miss Kasson, the county agent, Superintendent Thomas H. Edmonston of the charity board, and Miss Anne Heaney, one of the city's truancy officers, called at the city hall to have a consultation with City Judge Schirck as to what disposition was to be made in the case of Frank Everett, aged about 13 years.

It developed that Frank's mother was dead and his father could not be located. The boy had been boarding at a house uptown, but they did not desire to have him any longer.

The young chap is an honest straight forward young fellow and willing to work. He is also anxious to attend school and secure an education and had no desire to be sent away to an institution.

While the situation was being thoroughly discussed in the judge's private office the startling discovery was made that strange blotches were appearing on Frank's face.

To settle just what was the matter Judge Schirck sent for Dr. O'Leary who as soon as he had seen the boy declared it a case of measles.

Then was some agitation on the part of the various authorities in securing a boarding place for the boy. He was not desired at any of the city institutions and they met no success in finding any one willing to take the boy in and give him a home.

It was then that Secretary Shalloff of the health board was summoned into consultation. He shortly located a home for the boy and the lad was taken there, the charity board agreeing to pay for the lad's support as he is a very sick boy, as he has a severe attack of the measles.

## A NEW SYSTEM FOR THE DRAFT?

Local Boards Have Heard Nothing Relative to Alleged Change in Plan Featured in Certain Newspapers.

The officials of local boards for Divisions 1 and 2 of Ulster county, stated today that they had received no word from the adjutant general, stating that Ulster county would not have to provide any conscripts for the next big movement of troops for the National Army, during the five days beginning June 24.

The story that Ulster would not have to furnish any quota for this call, was featured in a local paper this morning, apparently without the writer attempting to interview the officials of the local board, relative to the announcement. The story first appeared in a New York city paper, stating that Ulster and several other counties would not have to furnish any men for this call, under a new plan, which disregards all precedent and reduces the number of Class 1 men with each board to 347 to equalize the number of men who will remain available for military service with each draft board.

The new plan, if this is a bona fide plan, is rather a complicated one, and officials of the local board stated today that they do not understand just how it could be worked out.

According to the story in the New York paper, 34 counties, under this new arrangement, will not be required to provide any men in the coming draft contingent. These counties include Ulster, Sullivan, Greene, Dutchess, Columbia, Delaware and Orange.

"We are all in the dark about this new plan," said one of the members of board 2. "We have not heard a word about Ulster not having to provide her quota for the next call."

## AMERICANS ENGAGE IN HEAVY FIGHTING

**Marines Make Two Successful Attacks in the Chateau Thierry Area—Infantry Slowly Driving the Germans Back This Morning—Artillery Fire Since Midnight.**

By Telegram to The Freeman.  
 With the American Army at the Marne, June 7.—(9 a. m.)—Severe fighting northwest of Chateau Thierry with Americans engaged was continuing early today.  
 American Marines, who launched two successful attacks against the Germans yesterday, have gained all their objectives excepting at one point where they were held up by a nest of German machine guns in a small wooded position on the right of the attack, called Bois De Balloir.  
 The original plan of attack did not call for us to enter the village of Jory, but the Marines swept on after getting the Germans, entering the village and holding it.  
 The Germans made repeated counter attacks but were unable to retake the village.  
 The sharpest encounter in last night's fighting occurred at Fourches (13 miles south of Neuilly and just northwest of Chateau Thierry). There the American Marines reached the edge of the village at dusk and swarmed in upon the German machine gun emplacements, annihilating the Boche gunners. The Germans were bayoneted at their guns and others that attempted to make a stand in the streets were captured.  
 Numerous prisoners were taken.  
 Late Thursday night the Germans made a sudden counter attack against the American infantry occupying positions to the right of the machine guns, forcing them to cede some ground at one point. Our men at once delivered a counter attack.  
 It dawned today (Friday), when the International News Service correspondents on the American front, the American infantry was slowly driving the Germans back, despite a torrent of German shells that covered all the back area.  
 The Germans, at an early hour today, were confining themselves largely to "seventy-seven" and "one hundred and sixty-five" millimeter gas shells.  
 Our batteries were replying with the liveliest fire on the whole line.  
 Since midnight the earth has been rocking with our gunfire and the very air has been trembling with the vibration from exploding shells.  
 With the American Army at the Marne, June 6.—(8 p. m.)—By a brilliant attack over a two and one-half mile front in the Neuilly sector of the Marne battle front the American Marines fighting alongside of the French extended their recent success in the same district by advancing three and one-half kilometers (approximately one and one-half miles). The Americans now hold all the high ground in the battle area northwest of Chateau Thierry.  
 The Americans fought with more than their old time gallantry, going over the top whistling Yankee Doodle.  
 All of the objectives were obtained by 7:45 o'clock this morning. Subsequently the day was marked by desultory skirmishing but late in the afternoon another strong attack was organized and at 5 o'clock the Marines again lunged forward against the Germans.  
 The doughboys gave the Germans a taste of the cold steel they will not forget in a hurry.  
 They pressed forward with such fury that the Germans were unable to withstand them and were completely routed. The Germans were driven like sheep from the crest of the high ground which was under attack.  
 Our men stopped at the foothills of a broad plateau overlooking a broad field where the Germans made futile counter attacks.  
 The second attack carried the Americans as far as the edge of the village of Corcy. (13 miles north of Chateau Thierry). The Americans now hold positions overlooking and commanding the railway that runs through that zone.  
 The French attacked at the same time as the Americans and they also were successful.  
 Today's operations by the Franco-American forces reversed conditions on the Marne. The Allies now have the upper hand and the situation, in a strategic sense, has been greatly improved.  
 An American general who talked with some of our wounded in a dressing station, said:  
 "It almost made me cry to see the look and enthusiasm of these boys. They were as proud of their wounds as a bride is of her first baby. They smoked cigarettes and told each other how they had 'winged.' In one instance they pleaded for a piece to get back to the 'big doings.'"  
 "Only do the Americans now hold the high ground of any im-

## IN THE SERVICE OF OUR COUNTRY

LIEUT. C. C. WHEELER.  
 U. S. S. Canonicus, a summer resident of West Esopus.  
 Raymond Zimmerman of 35 Clinton avenue, enlisted in the cavalry and has left town for Fort Slocum.  
 Richard A. Johnson of the U. S. S. Agamemnon is visiting his parents, Mr. and Mrs. Richard F. Johnston, on Wurts street.  
 Lieutenant Clifford Horsfall of Camp Lee, Virginia, is spending a ten days' furlough at the home of Mr. and Mrs. Richard Dawe on Lawrence street.  
 Ensign William A. Cook, of the United States Naval Reserve, stationed at Pelham Bay Park is visiting his parents, Mr. and Mrs. George Cook, of 22 Shufeldt street.  
 Mr. and Mrs. Thomas Jordan have received word of the safe arrival overseas of their son, First Class Private William Jordan. He was a member of Company N and later was transferred to Company C, 107th Infantry.  
 Miss Dora Barton of Albany and Mrs. William H. Williams of this city are visiting their brother, Private Thomas Jos. Bortou, at Camp Merritt, N. J. Private Barton enlisted in the regular army at Fort Slocum last September and expects to sail for overseas duty shortly.  
 "Mrs. Lawrence Coniff of No. 26 Wilbur avenue has received word from her brother, Private James J. Reilly, of his safe arrival overseas. Private Reilly enlisted with Company M and left with them for Camp Wadsworth, where he was later transferred to Company B, 107th Infantry.  
 Private Ernie S. Smith, Co. E, 163rd Inf., A. E. F., France, is the son of Mr. and Mrs. Benjamin Smith of New Paltz. He went to Camp Dix September 29, 1917, was transferred to Camp Gordon in November, sent to Camp Merritt February 1 and sailed a few days later and is now somewhere in France.  
 To Go To Camp Dix June 10—Local Board 1 Asked to Forward List of Available Men.  
 Uncle Sam needs a number of negroes at Camp Dix, and the provost marshal general has issued a call for same. The men wanted are caterers, cooks, butchers, assistant butchers, and laborers. One clerk is needed.  
 Only men physically fit for general military service are eligible. This is not a call where the men can volunteer. The board will forward the names of the men available, and the board will be notified if the men are accepted.  
 The men will be notified that they may be called and they are advised not to give up their present positions until they hear from the board that they have been accepted for the service.  
 A Heart Side Show.  
 New York Federation of Agriculture, which held "organization" meetings in Poughkeepsie, Kingston, and Walden among other places, is being repudiated by the State Grange, Dairymen's League, Federation of Farm Bureaus and State Agricultural Society. The officers of these organizations concede the need of closer union, but "no new organization is required." The News-tribune as a Hearst political annex, since its main object appears to be the misrepresentation of Governor Whitman—Newburgh News.  
 A Presbyterian Supper.  
 Next Tuesday evening from 5:30 to 7:30 o'clock a circle of ladies of the Roundout Presbyterian Church, of which Mrs. John Hubane and Georgia Deudney are chairmen, will give a supper in the chapel of the church. A fine menu, consisting of ham, beef loaf, creamed potatoes, radishes, salad, strawberry short cake with whipped cream, tea and coffee will be served. The charge will be moderate and the public is invited to attend.

## BROKE OUT WITH MEASLES IN COURT

While Officials Were Discussing What to Do With Frank Everett in Judge Schirck's Private Office Startling Discovery Was Made.  
 Wednesday morning Miss Kasson, the county agent, Superintendent Thomas H. Edmonston of the charity board, and Miss Anne Heaney, one of the city's truancy officers, called at the city hall to have a consultation with City Judge Schirck as to what disposition was to be made in the case of Frank Everett, aged about 15 years.  
 It developed that Frank's mother was dead and his father could not be located. The boy had been boarding at a house uptown, but he did not desire to have him any longer. The young chap is an honest straight forward young fellow and willing to work. He is also anxious to attend school and secure an education and had no desire to be sent away to an institution.  
 While the situation was being thoroughly discussed in the judge's private office the startling discovery was made that Frank's blotches were appearing on Frank's face.  
 To settle just what was the matter Judge Schirck sent for Dr. O'Leary, who as soon as he had seen the boy declared it a case of measles.  
 Then was some agitation on the part of the various authorities in securing a boarding place for the boy. He was not desired at any of the city institutions and they met no success in finding any one willing to take the boy in and give him a home.  
 It was then that Secretary Schirck of the health board was summoned into consultation. He shortly located a home for the boy and the lad was taken there, the charity board agreeing to pay for the lad's support as he is a very sick boy, as he has a severe attack of the measles.  
 At Annual Meeting Thursday Afternoon—Palmer A. Canfield Succeeded John Hancock as City Bookkeeper David Resigns.  
 The annual meeting of the board of water commissioners was held Thursday afternoon at which time the board elected Palmer A. Canfield as president to succeed John Hancock. William R. Harrison was re-elected secretary. The board granted Superintendent John H. Harrison an increase in salary of \$200 making the salary now \$2,900 a year. Alfred W. Tongue, cashier and assistant secretary was given an increase of \$100 a year making his salary \$1,500. The two inspectors, Edgar Holstein and A. Ray Powley were reappointed for another year at a salary of \$85 a month, the same as last season.  
 Commissioner William Roach whose term expired May 31, was reappointed a member of the board by Mayor Canfield.  
 It was decided to hold the annual inspection of the watershed next Thursday.  
 W. Frank Davis, bookkeeper, filed his resignation to take effect June 15, and Miss Belle Burger, bookkeeper for S. E. Eighmyer, the downtown dry goods merchant, was appointed to fill the vacancy.  
 The board also transacted considerable routine business before adjourning.

 Just Noise and Gas.  
 We have become so familiar with the volume, intensity and fleeting existence of noise that it never frightens us. We prophesied in the very beginning the downfall of Dillon, Bush and Fraser and we declared that we looked upon them with the same philosophic composure and indifference that the "sun looks upon the fire-fly." Our judgment has been vindicated and our prophecy has been fulfilled. John J. Dillon, Seth T. Bush and Samuel L. Fraser are a combination of wind and gas and have been pricked up by the point of public intelligence and they have exploded into the thin air.—Lyons Republican.  
 Children's Day Service.  
 The Sunday school of Trinity M. E. Church, assisted by the choir, are preparing a most excellent program for their annual Children's Day service on next Sunday morning at 10:30 o'clock. There will be recitations by members of the school and a special selection of songs published by Tullis & Meredith will be used. There will be no regular session of the Sunday school.

## A NEW SYSTEM FOR THE DRAFT

Local Boards Have Heard Nothing Relative to Alleged Change in Plan Featured in Certain Newspapers.  
 The officials of local boards for Divisions 1 and 2 of Ulster county stated today that they had received no word from the adjutant general stating that Ulster county would not have to provide any conscripts for the next big movement of troops for the National Army, during the five days beginning June 24.  
 The story that Ulster would not have to furnish any quota for this call, was featured in a local paper this morning, apparently without the writer attempting to interview the officials of the local board, relative to the announcement. The story first appeared in a New York city paper, stating that Ulster and several other counties would not have to furnish any men for this call under a new plan, which disregards all precedent and reduces the number of Class 1 men with each board to 247 to equalize the number of men who will remain available for military service with each draft board.  
 The new plan, if this is a bona fide plan, is rather a complicated one, and officials of the local board said today that they do not understand just how it could be worked out.  
 According to the story in the New York paper, 34 counties, under this new arrangement, will not be required to provide any men in the coming draft contingent. These counties include Ulster, Sullivan, Greene, Dutchess, Columbia, Delaware and Orange.  
 "We are all in the dark about this new plan," said one of the members of board 2. "We have not heard a word about Ulster not having to provide her quota for the next call."

## WAR AT A GLANCE

American forces, chiefly Marines, are now holding a wide front on the Aisne-Marne battle field and have distinguished themselves in the fighting of the past twenty-four hours by a series of brilliant dashes which carried them forward for important gains of ground.  
 The first news of the fresh American successes northwest of Chateau Thierry came from Newton C. Parke, one of the International News Service correspondents with the American army at the Marne. Later it was officially confirmed by the communiqué of the French war office.  
 The Americans, fighting with the cold steel, pushed their way into Torgy and penetrated Bourches, farther south. Battling their way through swarms of bullets that poured from the muzzles of innumerable German machine guns, the gallant boys from the United States swept all before them. Although heavily counter-attacked they held their gains.  
 Torgy lies about six miles northwest of Chateau Thierry. Bourches is about three miles northwest of Chateau Thierry.  
 At the same time American infantry fighting on the right of the Marne distinguished themselves. The Germans delivered a sudden and violent counter thrust against these forces compelling them to give a little ground, but this morning the battle was still raging in that quarter with the Germans falling back before the savage counter assaults of General Pershing's men.  
 American French and British troops all joined in a combined attack against the Germans on both flanks of the salient and important captures of ground were made at Rhims.  
 The task of attacking on the western flank of the salient fell to the Americans and French while the British took care of the eastern wing, capturing a village south of Rhims.  
 The initiative in the battle has now swung to the side of the Allies. Their attacks are growing in strength and the exhausted German armies are less and less able to withstand them. It is likely that the climax of the battle has come and that the counter-offensive of the Allies is now assuming its dramatic proportions.  
 Minor activities were reported from the Picardy and Flanders fronts. In both zones the Allies made successful raids.  
 This was the seventy-ninth day of the German grand offensive and the twelfth day of the Aisne-Marne drive.  
 OVER 500 ULSTER MEN REGISTERED  
 Are Ready To be Called To The Colors to do Their Bit For Uncle Sam—193 Men From Division 2 Registered—Cards still Coming in By Mail  
 Officials of the local boards for Ulster County are busy numbering and classifying the new registrants, and as soon as this work is completed a copy of the names of the prospective members of Uncle Sam's National Army will be furnished to the press. Board 3 is awaiting complete returns before taking up this classification.  
 Up to noon today returns showed that 517 men from Ulster County registered, divided among the three divisions as follows: Division 1 registered 173; Division 2, 151; Division 3, 193. Thursday night Division 2 reported 149, two others registered. One personally today, and the other card coming today by mail.  
 Division 3 registration was divided as follows: Marlborough, 35; Nanapanoch, 84; Phoenicia, 21. It is expected that these figures may be enlarged somewhat by completed returns. The number registered in the various registration places of Divisions 1 and 2 was given in Thursday's Freeman.  
 There were 14 aliens and 8 negroes who registered with local boards 1 and 2.  
 The registration was taken care of and in very efficient manner by the members of the various boards and their assistants. There was no disorder or confusion and the registrants were promptly taken care of. They all seemed glad and willing to register and anxious to be called into the service.  
 Fine Children's Day Program.  
 St. James's Sunday school will present an unusually unique and fine program on Sunday morning, when Children's Day will be observed. There will be charming carols, recitations, tableaux, both by the older scholars and the little tots. The service will very properly be largely patriotic in its character, and much will be made of the flag. "Under Three Flags" will be particularly interesting, as it will call for and secure the service of a corporal's guard of real soldiers.  
 In the evening there will be a service brief and bright, lasting less than an hour. The pastor will deliver a fifteen-minute sermon on "The Romance of Grace," and there will be attractive music.

## WATER BOARD RAISES PAY OF OFFICERS SITS ON THE FLOOR AND IS HAPPY

Corporal Smith is Not Lonesome But is Keeping an Eye Out for Other Kingston Boys Overseas.  
 The following letter from Corporal Donald R. Smith has been received by his brother, Amasa Smith, of 36 Warren street:  
 32nd Infantry, Co. K, American Expeditionary Forces, Via New York  
 My Dear Brother—  
 Am trying to get off a few letters to the family tonight even though I have to write sitting on the floor of my tent and use my mess kit for a writing table. It is hard to make an interesting letter, for there is so little to write about. I mean there is, so much news that we are not allowed to write. You understand and you will have to be contented to get just notes from me. But even by short notes you will know I am at least keeping well. So far I have not had one lonesome moment, and don't think I am going to have.  
 The country I have passed through so far is beautiful; so different from what I thought it would be. Everything is very interesting as you can imagine. I am keeping my eyes open for Kingston boys for I know that lots of them are around here somewhere. I would like to see Grant Blinnier. Do you know where he is located?  
 The days are long here, but I suppose they are the same home now. I am going to look for letters often from you. Don't wait to hear from me before you write.  
 I am keeping very well and am contented.  
 With lots of love to you and all the family.  
 Your loving brother,  
 CORPORAL DONALD R. SMITH.  
 "HAPPY" FINDS FUNNY CLIMATE  
 American Expeditionary Force, May 13, 1918.  
 Dear Mother:  
 Just a few lines hoping they will find you well. I am enjoying the best of health just at present. This is a funny climate. We have seen very little rain since, raining nearly all the time. This is one of the most ancient parts of France where we are just at present. I wonder the people like to come over here and look at the scenery. It is beautiful. This is all just at present, with lots of love and kisses. I remain as ever.  
 Your loving son,  
 "HAPPY" RALPH L. VOIGHT.  
 P. S.—Answer soon.  
 Uniforms for Ambulance Corps.  
 All members of the Ambulance Corps of the H. D. Reserve wishing to order uniforms please call at once at W. B. H. D., 44 Main street, to be measured for same. It is desired to have a uniformed corps as soon as possible.

- 11—Flowers on Mountain Tops.

- 12—It is known that upon many of the summits of the high mountain ridges of the Hawaiian Islands, in the regions of heavy rainfall, are open bogs which support a peculiar and interesting flora. Many species form more or less hemispherical tussocks which rise above the general level of the bog. A showy lobelia with numerous large cream-colored flowers as much as three and a half inches long, peculiar violets and a sundew are found there.

## Savings that Mount Up

SO-CO-NY gasoline gives you so many extra miles per gallon that the saving you effect over the use of inferior gasoline will help our aviators and all our forces over there. Such savings these days mount up. They help to win the war. The mock economy of inferior gas—like all false saving, is real waste.

SO-CO-NY is clean, powerful, quick starting and reliable. Look for the Red, White and Blue SO-CO-NY Sign. Buy wisely. Buy SO-CO-NY. It's gasoline thrift.

## Savings that Mount Up

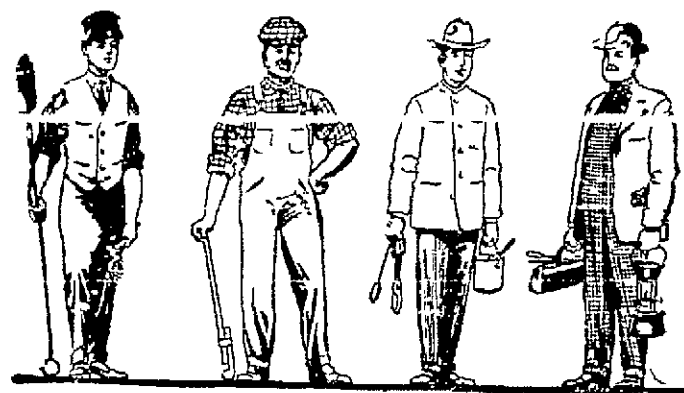

SO-CO-NY gasoline gives you so many extra miles per gallon that the saving you effect over the use of inferior gasoline will help our aviators and all our forces over there. Such savings these days mount up. They help to win the war. The mock economy of inferior gas—like all false saving, is real waste.

SO-CO-NY is clean, powerful, quick starting and reliable. Look for the Red, White and Blue SO-CO-NY Sign. Buy wisely. Buy SO-CO-NY. It's gasoline thrift.

## MOST DESPICABLE OF ALL.

It is charged that some fifty thousand more or less prominent English men and women are giving traitorous aid to Germany from fear of exposure as practitioners of vice, that a German prince, Wilhelm of Wied, holds a "black book" in which the names and the proofs are given, and that such guilty persons of eminence as Lord Haldane, Mr. Asquith, etc., have thus been blackmailed into serving the purposes of Germany. Everywhere in the world it is possible to uncover a certain amount of vice among both high and low, but the monstrous charge that fifty thousand English people of distinction are both guilty and willing to serve Germany in order to escape detection falls to the ground of its own weight. It is not merely incredible, it is silly, and only the scandal-monger of diseased mind can give it a moment's consideration.

As usual the German schemers have overshot the mark. The wish that was the father of this infamous thought made the mistake of exercising no restraint and thus foolishly blundered. If it had been charged that some half dozen guilty Englishmen had been blackmailed into becoming traitors to their country, believers of such a story might have been found, but the charge that upper class England is honeycombed with treason because persons addicted to vice in practically every distinguished household tremble under the menace of a German "black book" begets only smiles of derision and expectations of disgust. The thing may be dismissed as merely the most despicable and filthiest of all Germany's shamelessly unscrupulous political offensives.

## WAR WORK IN UNIVERSITIES.

The vastness of our actual and preparatory war work is continually revealed by the crowding announcements in the government's daily Official Bulletin, many of which never appear in the newspapers for the simple reason that matters of supposedly greater general interest take up all the available space. Take, for example, the announcement that thousands of draft men are being trained at universities for special war work. It is interesting to know that the universities are engaged in such special training and that highly useful results are being achieved. One of the reports comes from the University of Pittsburgh and shows how that institution is training drafted men for service as gas engine and automobile mechanics.

A special staff of instructors has been provided, supplementing several members of the faculty who are themselves gas engine specialists. Practical men have been called from the many automobile repair shops of Pittsburgh, and about forty-five of these, without academic experience but with the special knowledge demanded, are successfully employed as teachers. It is impressed on these instructors that the work they are doing is very important, and that, "if one-fourth of the men they train prove to be poor mechanics it is just as serious, or probably more serious, than if one-fourth of the shells made in a munition plant should fail to explode." The students from the ranks of drafted men, who study new engines as well as work on old cars, numbered 650 by the end of the second month, are expected to increase to 1,000 by June 15, and to 2,000 by August. The certain and excellent practical results of such training are manifest.

We read of a young woman of only 17 who can not live on less than \$20,000 a year and finds herself unable to spare a cent for patriotic contributions. Her indulgent country can permit the existence of such selfish, self-centered, luxury-gorged creatures, but it can hardly be expected to be proud of them.

It may seem strange that the Germans always strike in superior force, but the explanation is simple. The Allies have vast numbers but their long line of four hundred and more miles is necessarily thin and it takes time to bring up reinforcements when the Germans strike unexpectedly.

edly, after moving by night and lying hidden in woods by day.

When the Americans advanced on more than a mile front, took Cantigny from an entrenched enemy of superior force, then held it against repeated assaults, an event of much significance went into history. Comparatively untrained though they are, all the Americans appear to need is numbers and these they will surely have in due time.

## WOMEN'S WAR DUTIES.

Red Cross Workers Hear Inspiring Address by Mrs. Searing.

The Red Cross workers assembled at the Rondout Presbyterian Church on Thursday afternoon and were given both a treat and an inspiration when Mrs. John W. Searing addressed them for a short time on the general subject of "Conservation," and women's duties these war times. Mrs. Searing, who was introduced by Mrs. C. E. Hasbrouck, called attention to the need of conservation not only in food, where we all know its need, but also in clothing and the general care and maintenance of the home. Conservation of labor could be effected by the women in the home doing their own work, now that there is such an urgent call for the services of young women in the women's land army and to take the places made vacant by the drafted men.

Mrs. Searing also urged upon the women present to stand loyally back of our government in word as well as in deed, and warned her hearers to be alive to the word or act that had any trace of pro-Germanism. Nor should such word or act be merely the subject for gossip, but repeated it should at once be reported to the proper authorities. Mrs. Searing closed with warm words of commendation for the splendid Red Cross work being so efficiently and unselfishly done by the women at the Rondout Presbyterian Church and reminded her audience of the noble service they were rendering their country through the Red Cross.

## Express Companies Consolidate.

Further information has been received by F. J. Hass, local manager of the American Express Company, in regard to the consideration of the express organizations under the guidance of Director General McAdoo. The new company, says Mr. Hass, will be capitalized at \$30,000,000, the actual value of the physical properties and cash put into the business. Instead of having numerous contracts with individual railroads for various amounts, there will be but one blanket contract with the entire government-controlled railroads. By this contract, the American Railroad Express Company, as the consolidated companies will be known, will collect, insure, guard and deliver express shipments, as in the past, and the government railroads will haul them. The rates charged for express transportation will continue to be under government control.

It's fair to assume that every man who buys clothes wants good clothes; no matter what price you pay for a suit, \$25 or \$75, you want to get good value for your money. That's really the only business-like way to look at it.

We sell

Hart Schaffner & Marx  
fine clothes

We handle these goods because we know they represent greater value for the price we ask than any other clothes made. We know where to get the cheap stuff; we know who makes it, and how it's made and what it's made of; they tell us; there's no deception about it. Some of it is worth the price; but the price isn't high enough for good clothes

The price of Hart Schaffner & Marx clothes is enough to insure quality; and not too much to give big values. That's why we sell them; and if you're wise, that's why you'll buy them.

## CROSS NOW A STAR SETTLED DISPUTE

Puzzle of Whether Cross Around Railroad Flag Pole was Maltese or Iron Cross "Solved"—Darby Doyle Makes an Arrest.

What threatened to become one of the most disputed questions of the day has now been settled once for all by changing the Maltese, or was it the Kaiser's iron cross, dug in the sod around the flag pole erected by the railroad men at the West Shore station, to a star.

Originally it was decided to have a Maltese cross dug in the sod around the flag pole and make it into a flower bed to enhance the beauty of the spot. When the cross was completed, however, some of the railroad men were of the opinion that it resembled an iron cross and it roused their patriotic ire.

The question was discussed pro and con and was even discussed at police headquarters when Sergeant Phinney investigated and was of the opinion that a Maltese cross was of more curved line design.

Officer Gus Kuehn gave the matter considerable study also and after two nights' work on the problem conceded to Darby Doyle, who had supervised the job of having the cross excavated, that in his opinion an iron cross had both curved and straight lines.

"Oh, shucks," said Darby, just like that, when Officer Gus informed him of the result of his studies on the subject, "we'll change the dinged thing so that there will be no mistake in the matter."

Darby then held his brow in his hands and sat in an attitude of deep thought. Suddenly he was seized with an inspiration and said: "I have it; we'll make it a star instead."

This meant more work and more excavating and while it was underway Officer Art Dempsey suggested that it would not be a bad idea to make the star in mound form.

Darby in order that the work would progress satisfactorily secured a horse and wagon and carted dirt to assist in filling in the excavation.

It was when Darby was drawing his first load of dirt that trouble started.

The Greek who has a peanut stand at the entrance to Railroad avenue was busy selling peanuts when Darby drove up. Darby thought the peanut man ought to move his peanut wagon out of the way so that it would not interfere with his unloading the dirt.

The peanut man sized up the situation and decided his peanut stand was not in the way and that he did not think it necessary to move it.

The argument drew the attention of Officer William Reardon and Darby asked him to place the peanut under arrest.

Officer Bill considered the situation and reached the conclusion that it was a question that was rather deep so he turned to Darby and remarked that if he wanted the man arrested to make the arrest himself as a citizen.

Darby thought the suggestion good and placed the Greek under arrest and turned him over to Officer Bill who gravely informed the Greek that he was to appear in police court at 9:30 this morning.

Darby then went on and unloaded his wagon and the Greek's peanut stand was not moved from its original position either.

After Darby had unloaded his wagon he turned to Officer Bill and said: "Well, we got unloaded all right, but you might just as well discharge your prisoner."

Officer Bill could not see it that way, however, and said that Darby could make an arrest as a citizen, but he hardly thought that Darby could also sit as a magistrate.

This morning the Greek showed up at police court but Darby failed to put in an appearance.

The Greek then sought out Sergeant Phinney and informed him that he had been arrested by Darby Doyle and asked what he should do. The sergeant informed him to return to his peanut stand and if he was needed in court he would be sent for.

There the situation now rests.

## SUPER-SUBMARINE SUNK HARPATHIAN

By Telegraph to The Freeman.

Washington, June 7.—The British steamer Harpathian, which was torpedoed off the Virginia Capes Wednesday, was sent to the bottom by a super-submarine, according to a statement by the captain and announced by the navy department this afternoon. The submarine that made the attack was described as being between 250 and 300 feet long. The captain saw no torpedo until the vessel was struck.

Shortly after the vessel sank the submarine appeared, and the German commander came out of the conning tower and asked if everyone was saved. The captain replied that all but one fireman who was hurt, had been rescued. The engine man was then taken aboard the submarine, his injuries dressed and then returned to the lifeboats. An American brand of tobacco was then distributed by the German to the crew of the torpedoed ship.

The captain of the Harpathian counted 37 men on the submarine, and also observed two guns of about six-inch calibre, mounted on the deck, fore and aft.

## CITY SEEKS PERMIT TO LAY PAVEMENT

Four Miles Under Contract for Completion This Year Which It is Hoped the Government Will Give Its Consent to be Completed.

That all street paving contracts in the city may be held up by the government, for at least an indefinite time, is the situation which the city may be called on to face.

The opinion of the mayor however, as expressed by him this morning is that the Willite contracts may be allowed to go on. "They have some material ready and will finish some of the work," said Mayor Canfield.

In the meantime application blanks which were obtained at Albany are being filled out and will be forwarded to the state department of roads at Albany for permission to finish the contracts for the laying of the Willite pavements. About four miles are under contract to be finished this year. If the approval of the department at Albany is obtained the applications must then be approved at Washington. A representative of the Willite people was in Albany Thursday to consult with the department and obtain the necessary blanks, the mayor said. At present, or until definite word is obtained in reply to these applications, the matter is entirely in the air.

Speaking of the situation with respect to public work, Mayor Canfield pointed out the fact that the city cannot excavate a foot of ground without getting the permission of the government, with the view of conserving certain kinds of material and restricting for the use of the government transportation facilities.

The opinion Mayor Canfield expressed was that the city may be allowed to go on with existing contracts with the Willite people.

"Most of the material that will be needed in putting down the Willite pavement," he said, "is right here at hand. It can be obtained without being transported on the public transportation lines as would be the case in using brick for pavements. Ninety per cent is sand and we've got the sand."

## PENROD WRITES ABOUT HIS GARDEN

By Booth Tarkington.  
Hon. Franklin K. Lane, the Secretary of the Interior, Washington:

Dear Mr. Secretary:—A kind of friend of mind told me you wrote to him to tell me to write a letter about raising vegetables to eat and all. His name is Mr. Tarkington or something like that and he said he would address the letter and all and write what is at the top of this letter to start with. Well I do not know much about raising vegetables yet but I will tell all I know. Miss Spence said our class better join the U. S. School Garden Army and when she says we better why we usulay we got to. Besides she said the U. S. Government says so too and it is the School Garden Army is an Army of the U. S. Government and if we belong to it we are just as much in the army as if we had guns, and will get a badge and all and besides can get some money by selling the vegibles. Well, I would like to have some money and so would any other boy and girl. Besides this I would do it anyway because if I am in the U. S. S. G. I am in the Army and have a badge. And I can eat some of the vegibles myself and all. Well anybody wants to be in the army of course, so I am now going to be a member of the army. Anybody what says I am not going to be ask whoever they like they will tell them quick enough I am going to be in the Army because I am going to be in the U. S. S. G. Army. It has the U. S. before it and I guess that is enough for me I guess.

Well so we thought we better get some practice raising some vegetables, so we went to Sam Williams's yard and got two colored boys so as to have them to do a good deal of the work, as they have got to work almost all the time anyway at their own house. These two colored boys they used to live in the country out about five and one-half miles and they know how to raise cabaj and all.

Well, Sam said we could dig up his back yard and he would help some. We also got some seeds that we got by trading some old iron to the rag man, and we had onion seed and we had some potatoes eyes, and some corn. Well, it did not look like much use. You can dig up a yard and put these things in and cover them up, and maybe put some rich dirt on top, and it does not look like much use, I tell you. Well, we sat around there after school for several days; when we had put all these things in the ground we felt like we wished they would come up so we could look at them.

This is not the first time Sam and I have planted seed because I expect in our time we have planted more chery stones and peach stones and orange seeds and lemon seeds, and apple seeds and once we must have planted anyway 1,000,000 water-melon seeds in our yard but you could go to the place 1,000,000 times and look at it for a couple of hours if you wanted to, but you would never see any difference. But that was going to be in the U. S. S. G. Army of course we would know better. When we were little we would just as leaf do our planting in October as any other time.

Well so one morning before school Sam Williams called me to come over there and he was all hopping when I got to our farm because there was a little plant sticking up out of the ground and signs of some more coming with little leaves and all. I tell you we never did feel better than when we say that because it was our own little plant on our own little farm and it made us feel hungry like we wanted to eat it ourselves right away but we did not because of course it would be too young and if we went and eaten it we could not sell it. Well, we were pretty glad all day and after school we sat and looked at our farm and pulled some weeds out and we could see this plant was already ready some bigger and I thought onions, Verman said corn, but he probably said that because he is tongue-tied and it was the easiest for him to say.

Well anyway we thought a great deal of our plant and Sam said he never did like any plant as much as he did that one and so did I because when you have raised a plant it is different from any plant. And Sam said they were coming up so fast now we would probably have 100 by tomorrow morning.

Well we did not. I went there before school next morning and Sam said look what happened and he was almost crying because this is what had gone on. Well some old chickens had been there and they had scratched up our whole farm up the vile old chickens and eaten up all our seeds that had not sprouted and there was not any farm left.

Well we called the two colored boys an they were as mad as a thing but they said if they could find those chickens they knew what they would do with them and so we would begin all over again and make a new farm, because the spring was early yet and if those chickens can back well just let them try it that's all.

Well in school Miss Spence told us some more about the U. S. S. G. Army. She said there would be directors to tell us what to do to make our little farms, and would come back where the farm was like Sam's back yard for instance sometimes, and would tell us all how to get the farm going so we can see our own vegetables coming up pretty as anything and sell them and make money and be in the Army. On the badge a captain will have three stars and if Sam is a first lieutenant he will get two stars and if Herman is a second lieutenant he will get a badge too.

So we are going to start our farm again and it is going to be a mighty good farm. She said this army was going to have 5,000,000 boys and girls, just as many as there will be soldiers in the army, and our farm is going to be the best because we have already got the experience of one farm and we would not take anything for how we felt when we saw our own plant coming up and getting ready to eat. That is a kind of a

feeling nobody knows how much excitement there is in it till you see your own plant coming up like that.

Well and so that is about all because our army is getting ready to begin and help win the war and see their own plant coming up. Well we have got some pretty good spades and hoes and rakes and trowls and we found where those vile hens came from. They belong to old Mr. Trunket lives three doors up the street from Sam so we thought we better warn this old Trunket and we wrote him a note. It said if any more vile hens found on our farm they would then be the property of a poor colored family that is in need.

So we expect there will probably be no more trouble and pretty soon some morning we will see our own plants coming up again and will all be looking at our own good old plants and wearing our badge of the U. S. S. G. Army.

Yours sincerely,

### OUR DAILY PATTERN.

A Popular, Comfortable and Practical Style.

2082—One-Piece Dress for Misses and Small Women.  
There is hardly any style so well adapted to slender figures as this one. It is easy to develop and good for any of the materials now in vogue. Broad panels, with plaits at the seams, are joined to the side fronts. A smart collar trims the "V" neck edge. The sleeve may be in wrist or elbow length. The pattern is cut in 3 sizes: 16, 18 and 20 years. It requires 5 1/2 yards of 44 inch material for an 18 year size. The skirt measures about 2 1/2 yards at the foot.

A pattern of this illustration mailed to any address on receipt of 10 cents in silver or stamps by the Pattern Department, The Freeman, Rondout, N. Y. Be sure to state the size wanted.

**Catalogue Notice.**  
Send 10c in silver or stamps for our Up-to-Date Spring and Summer, 1918, Catalogue, containing 550 designs of Ladies', Misses' and Children's Patterns, a concise and comprehensive article on dressmaking; also some points for the needle (illustrating 80 of the various, simple stitches) all valuable hints to the home dressmaker.

### THINGS THAT HELP.

When washing crepe waists they will keep their freshness if dipped in a rinse water of very thin starch and dried over a coat hanger.

One woman who has much flat ironing to do economizes her strength by using a large kitchen table, spreading towels bed linen and such flat pieces which may be ironed while the more particular ironing is being done.

The ironing sheet should of course be placed over these pieces, then with a little extra folding and a press or two they are ready for clothes bars. When traveling, small boxes or pieces of pasteboard will keep waists and small articles from getting rumpled. These may be labeled, saving the opening of wrong boxes.

To removed hot-water marks from a japanned tray, try rubbing with a little sweet oil. After the marks have all disappeared, polish the tray with a little dry flour and a soft duster.

Equal parts of ammonia and turpentine will take paint out of clothing even if well dried. Saturate the spot two or three times and then wash in soapuds.

Window shades that have become cracked may be repainted with an oil paint, using care to keep them flat. Dry thoroughly and turn to give the other side of the shade a coat. Window shades are going up in price as the other household articles, so if we can renew them by such treatment it will be an economy.

When cleaning mopboards, protect the walls from careless spotting with a large piece of pasteboard, held against the wall during the process of cleaning. In these days of sugar conservation, the children will be made happy with animal crackers, dipped in various colored frostings, or a fondant may be used. A cheap and effective mixture for chapped hands is a thick paste made of lard and flour well mixed and rubbed into the hands at night. It will be well to wear gloves to protect the bedding from the fat.

Never throw water on burning oil, it only scatters it. Smolder it with anything nearest at hand, sand, earth, or even with flour.

**MOST DESPICABLE OF ALL.**

It is charged that some fifty thousand more or less prominent English men and women are giving traitorous aid to Germany from fear of exposure as practitioners of vice, that a German prince, "Wilhelm of Wied," holds a "black book" in which the names and the proofs are given, and that such guilty persons of eminence as Lord Maudslayi, Mr. Asquith, etc., have thus been blackmailed into serving the purposes of Germany. Everywhere in the world it is possible to uncover a certain amount of vice among both high and low, but the monstrous charge that fifty thousand English people of distinction are both guilty and willing to serve Germany in order to escape detection falls to the ground of its own weight. It is not merely incredible, it is silly, and only the scandal-monger of diseased mind can give it moment's consideration.

As usual the German schemers have overshot the mark. The wish that was the father of this infamous thought made the mistake of exercising no restraint and thus foolishly blundered. If it had been charged that some half dozen guilty Englishmen had been blackmailed into becoming traitors to their country, believers of such a story might have been found, but the charge that upper class England is honeycombed with treason because persons addicted to vice in practically every distinguished household tremble under the menace of a German "black book" begets only smiles of derision and expectations of disgust. The thing may be dismissed as merely the most despicable and filthiest of all Germany's shamelessly unscrupulous political offensives.

**WAR WORK IN UNIVERSITIES.**

The vastness of our actual and preparatory war work is continually revealed by the crowding announcements in the government's daily Official Bulletin, many of which never appear in the newspapers for the simple reason that matters of supposedly greater general interest take up all the available space. Take, for example, the announcement that thousands of draft men are being trained at universities for special war work. It is interesting to know that the universities are engaged in such special training and that highly useful results are being achieved. One of the reports comes from the University of Pittsburgh and shows how that institution is training drafted men for service as gas engine and automobile mechanics.

A special staff of instructors has been provided, supplementing several members of the faculty who are themselves gas engine specialists. Practical men have been called from the many automobile repair shops of Pittsburgh, and about forty-five of these, without academic experience but with the special knowledge demanded, are successfully employed as teachers. It is impressed on these instructors that the work they are doing is very important, and that, "if one-fourth of the men they train prove to be poor mechanics it is just as serious, or probably more serious, than if one-fourth of the shells made in a munition plant should fail to explode." The students from the ranks of drafted men, who study new engines as well as work on old cars, numbered 650 by the end of the second month, are expected to increase to 1,000 by June 15, and to 2,000 by August. The certain and excellent practical results of such training are manifest.

We read of a young woman of only 17 who can not live on less than \$20,000 a year and finds herself unable to spare a cent for patriotic contributions. Her indulgent country can permit the existence of such selfish, self-centered, luxury-gorged creatures, but it can hardly be expected to be proud of them.

It may seem strange that the Germans always strike in superior force, but the explanation is simple. The Allies have vast numbers but their lines of four hundred and more miles is necessarily thin and it takes time to bring up reinforcements when the Germans strike unexpectedly.

edly, after moving by night and lying hidden in woods by day.

When the Americans advanced on more than a mile front, took Cantigny from an entrenched enemy of superior force, then held it against repeated assaults, an event of much significance went into history. Comparatively untrained though they are, all the Americans appear to need is numbers and these they will surely have in due time.

## WOMEN'S WAR DUTIES.

**Red Cross Workers Hear Inspiring Address by Mrs. Searing.**

The Red Cross workers assembled at the Rondout Presbyterian Church on Thursday afternoon and were given both a treat and an inspiration when Mrs. John W. Searing addressed them for a short time on the general subject of "Conservation," and women's duties these war times.

Mrs. Searing, who was introduced by Mrs. C. E. Hasbrouck, called attention to the need of conservation not only in food, where we all know its need, but also in clothing and the general care and maintenance of the home. Conservation of labor could be effected by the women in the home doing their own work, now that there is such an urgent call for the services of young women in the women's land army and to take the places made vacant by the drafted men.

Mrs. Searing also urged upon the women present to stand loyally back of our government in word as well as in deed, and warned her hearers to be alive to the word or act that had any trace of pro-Germanism. Nor should such word or act be merely the subject for gossip, but unreservedly should at once be reported to the proper authorities. Mrs. Searing closed with warm words of commendation for the splendid Red Cross work being so efficiently and unselfishly done by the women at the Rondout Presbyterian Church and reminded her audience of the noble service they were rendering their country through the Red Cross.

**Express Companies Consolidate.**

Further information has been received by F. J. Hass, local manager of the American Express Company, in regard to the consideration of the express organizations under the guidance of Director General McAdoo. The new company, says Mr. Hass, will be capitalized at \$20,000,000, the actual value of the physical properties and cash put into the business. Instead of having numerous contracts with individual railroads for various amounts, there will be but one blanket contract with the entire government controlled railroads. By this contract, the American Railroad Express Company, as the consolidated companies will be known, will collect, insure, guard and deliver express shipments, as in the past, and the government railroads will haul them. The rates charged for express transportation will continue to be under government control.

**PLUTARCH.**

## The Truth About Clothes.

Copyright Hart Schaffner &amp; Marx

It's fair to assume that every man who buys clothes wants good clothes; no matter what price you pay for a suit, \$25 or \$75, you want to get good value for your money. That's really the only business-like way to look at it.

We sell  
**Hart Schaffner & Marx**  
fine clothes

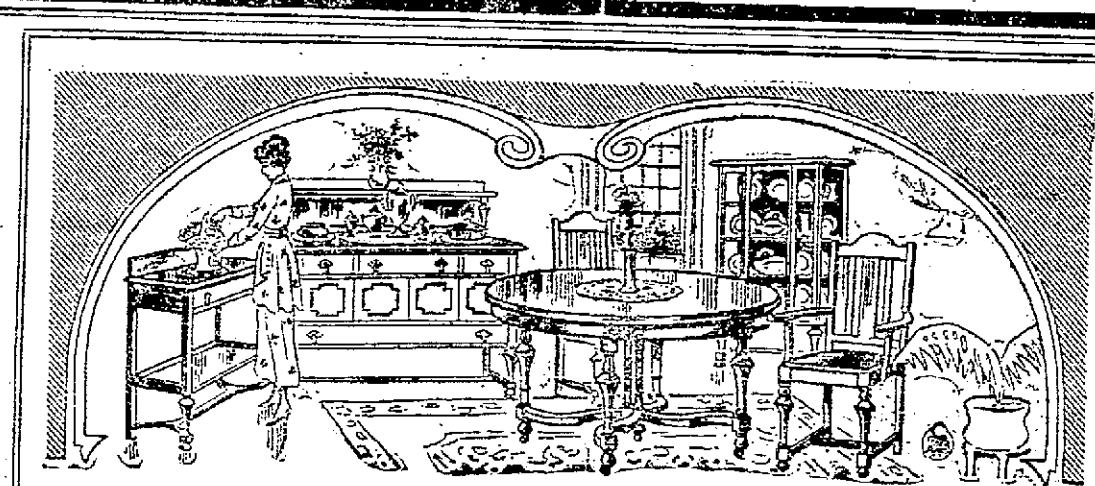

We handle these goods because we know they represent greater value for the price we ask than any other clothes made. We know where to get the cheap stuff; we know who makes it, and how it's made and what it's made of; they tell us; there's no deception about it. Some of it is worth the price; but the price isn't high enough for good clothes

The price of Hart Schaffner & Marx clothes is enough to insure quality; and not too much to give big values. That's why we sell them; and if you're wise, that's why you'll buy them.

## CROSS NOW A STAR SETTLED DISPUTE

Puzzle of Whether Cross Around  
Railroad Flag Pole Was Maltese or  
Iron Cross "Solved"—Darby Doyle  
Makes an Arrest.

What threatened to become one of the most disputed questions of the day has now been settled once for all by changing the Maltese, or was it the Maltese iron cross, dug in the sod around the flag pole erected by the railroad men at the West Shore station to a star.

Originally it was decided to have a Maltese cross dug in the sod around the flag pole and make it into a flower bed to enhance the beauty of the spot. When the cross was completed, however, some of the railroad men were of the opinion that it resembled an iron cross and it roused their patriotic ire.

The question was discussed pro and con and was even discussed at police headquarters when Sergeant Phinney investigated and was of the opinion that a Maltese cross was of more curved line design.

Officer Gus Kuehn gave the matter considerable study also and after two nights' work on the problem concluded to Darby Doyle, who had supervised the job of having the cross excavated, that in his opinion an iron cross had both curved and straight lines.

"Oh shucks," said Darby, just like that, when Officer Gus informed him of the result of his studies on the subject. "We'll change the thing so that there will be no mistake in the matter."

Darby then held his brow in his hands and sat in an attitude of deep thought. Suddenly he was seized with an inspiration and said: "I have it. We'll make it a star instead."

This meant more work and more excavating and while it was under way Officer Art Dempsey suggested that it would not be a bad idea to make the star in mound form.

Darby in order that the work would progress satisfactorily secured a horse and wagon and carted dirt to assist in filling in the excavation.

It was when Darby was drawing his first load of dirt that trouble started.

The Greek who has a peanut stand at the entrance to Railroad avenue, was busy selling peanuts when Darby drove up. Darby thought the peanut man ought to move his peanut wagon out of the way so that it would not interfere with his unloading the dirt.

The peanut man sized up the situation and decided his peanut stand was not in the way and that he did not think it necessary to move it.

The argument drew the attention of Officer William Reardon and Darby asked him to place the peanut under arrest.

Officer Bill considered the situation and reached the conclusion that it was a question that was rather deep so he turned Darby and remarked that he wanted the man arrested to make the arrest himself as a citizen.

Darby thought the suggestion good and placed the Greek under arrest, and turned him over to Officer Bill who gravely informed the Greek that he was to appear in police court at 10 this morning.

Darby then went on and unloaded his wagon and the Greek's peanut stand was not moved from its original position either.

After Darby had unloaded his wagon he turned to Officer Bill and said: "Well we got unloaded all right to you might just as well discharge your prisoner."

Officer Bill could not see it that way, however, and said that Darby could make an arrest as a citizen, but he hardly thought that Darby could also sit as a magistrate.

This morning the Greek showed up at police court but Darby failed to put in an appearance.

The Greek then sought out Sergeant Phinney and informed him that he had been arrested by Darby Doyle and asked what he should do. The sergeant informed him to return to his peanut stand and if he was needed in court he would be sent for.

There the situation now rests.

Lengthens Life of Chain.

It has been discovered that a hemp rope twisted in and out of the links of an iron chain will make the chain last 70 per cent longer by reducing friction, and save from one-fifth to one-third of the price of a new chain.

## SUPER-SUBMARINE SUNK HARPATHIAN

By Telegram to The Freeman.

Washington, June 7.—The British steamer Harpathian, which was torpedoed off the Virginia Capes Wednesday, was sent to the bottom by a super-submarine, according to a statement by the captain and announced by the navy department this afternoon. The submarine that made the attack was described as being between 250 and 300 feet long.

The captain saw no torpedo until the vessel was struck.

Shortly after the vessel sank the submarine appeared, and the German commander came out of the conning tower and asked if everyone was saved. The captain replied that all but one fireman who was hurt, had been rescued. The engineer was then taken aboard the submarine, his injuries dressed and then returned to the lifeboats. An American brand of tobacco was then distributed by the German to the crew of the torpedoed ship.

The captain of the Harpathian counted 37 men on the submarine, and also observed two guns of about six-inch calibre, mounted on the deck, fore and aft.

Officer Gus Kuehn gave the matter considerable study also and after two nights' work on the problem concluded to Darby Doyle, who had supervised the job of having the cross excavated, that in his opinion an iron cross had both curved and straight lines.

"Oh shucks," said Darby, just like that, when Officer Gus informed him of the result of his studies on the subject. "We'll change the thing so that there will be no mistake in the matter."

We doubt seriously whether you could purchase the material for these petticoats, make them and trim them for the price. The crepe de chine is of splendid quality and the wash satin of equally good a grade. Have flounces and accordion plaits. A number trimmed with lace, others have corded ruffles. Elastic waistbands. Black and colors.

## CITY SEEKS PERMIT TO LAY PAVEMENT

Four Miles Under Contract for Completion This Year Which It is Hoped the Government Will Give Its Consent to be Completed.

That all street paving contracts in the city may be held up by the government, for at least an indefinite time is the situation which the city may be called on to face.

The opinion of the mayor however, as expressed by him this morning is that the Willite contracts may be allowed to go on. They have some material ready and will finish some of the work," said Mayor Canfield.

In the meantime application blanks which were obtained at Albany are being filled out and will be forwarded to the state department of roads at Albany for permission to finish the contracts for the laying of the Willite pavements. About four miles are under contract to be finished this year. If the approval of the department at Albany is obtained the applications must then be approved.

Washington. A representative of the Willite people was in Albany Thursday to consult with the department and obtain the necessary blanks the mayor said. At present, or until definite word is obtained in reply to these applications, the matter is entirely in the air.

Speaking of the situation with respect to public work, Mayor Canfield pointed out the fact that the city cannot excavate a foot of ground without getting permission of the government, with the view of conserving certain kinds of material and restricting for the use of the government transportation facilities.

The opinion Mayor Canfield expressed was that the city may be allowed to go on with existing contracts with the Willite people.

"Most of the material that will be needed in putting down the Willite pavement," he said "is right here at hand. It can be obtained without being transported on the public transportation lines as would be the case in using brick for pavements. Ninety per cent is sand and we've got the sand."

## BIG SCOUT RALLY IN KINGSTON

Kingston is to be the scene of one of the biggest Scout Rallies ever seen in the Hudson valley, as it will include troops from the entire Hudson valley, and if the weather is favorable it is expected that there will be some 500 Scouts in Kingston on the evening of July 3rd and on July 4th.

This big rally, with the camp of the evening before the Fourth, will be held in Forsyth Park, and will offer a sight long to be remembered, and one that will be especially impressive these war times. It was voted at the council meeting of Kingston Scouts, held this week, to hold this rally, and to make it big enough to include not one or two counties, but the entire Hudson river section. Forsyth Park, which covers considerably more ground than is often realized, offers an admirable site for the over-night camp. There is ample space for all necessary tents, and visiting troops will be urged to send their tents here two or three days before the rally in order that they may be up and ready for the Scouts on arrival. The council is also asking those people in Kingston who have tents that they can loan, to loan them to the Scouts, so that every troop, coming to the city, besides our own boys, may surely be under cover for the night. At the present writing a big pit has been dug in one corner of the park site, later to be made into a sand pit, and this spot will be used for the cooking fires and also for the big camp fire, thus insuring perfect safety from any spread of fire.

That the hospitality of the Kingston Scouts may be as complete as cordial, everything will be done to care for the comfort and safety of the visiting lads, as will be seen by the following officers and directors who will have charge of the undertaking.

Director of the Rally, Scout Executive Soles.  
Officer of the Day (general hospitality), Scoutmaster Arthur Cole.  
Director of the Program, Scout Master Winfield S. Stinson of Tivoli, Rhinebeck and Red Hook.  
Grand Marshal for big Fourth of July Parade, Boy Scout Division, Sergeant George Whittaker.  
Director of Hospitality, Tent, Dr. Henry Van Hovenberg, assisted by Assistant Scout Master W. W. Brady, Jr., specialist in Scout First Aid.  
Director of Sanitation, Fred M. Dressel.  
Directors of Publicity, E. F. MacFadden and A. Cohen.  
Officers of Commissary Department, H. Bircher.  
Official Photographer, W. H. Fuller.

The judges appointed to award the prize for the best troop in the Fourth of July parade will be Rear Admiral Francis J. Higginson, the Hon. Joseph M. Fowler, D. B. G. Atkins and Captain Everett Fowler. The judges for the various contests will be visiting Scout officials. Scout Master E. N. Palen will have charge of Troop 5, this city, until such time as a new rector is called to St. John's Episcopal Church.

The Kingston men who contributed to the prizes to be awarded for the parade and contests were Mayor Palmer Canfield, Jr., Senator Walton, President E. H. Bogart of the Kingston Scout organization, Scout Commissioner A. Freeman; vice-president, C. A. Warren; and Scout Master E. N. Palen.

The entire program from the time that the Scouts arrive about 2:30 on the afternoon of July 3rd, until they leave on the evening of the Fourth will be most interesting, and to much of the exercises the public will be invited. The full general program and a statement of many more interesting details relative to the rally will appear in tomorrow evening's issue of The Freeman.

This big rally will offer the best possible opportunity for Kingstonians to see at first hand what Scouting really is and may be.

Company M at Rifle Range.

Company M left the armory this morning at 7 o'clock for Mutton Hollow, where they will spend the day at the rifle range. The trip was made by stage. Majors Parish and Kimble of the state ordnance department accompanied the soldiers and will make an inspection of the company.

Value of Common Things.  
The common things of life are things well worth while when we know what to do with them. It was a glimpse of a bird that he had never seen before, but which he might have seen a thousand times so common was it, that made a foremost nature writer out of Bradford Torrey.

## ENLISTMENT IS NOT PERMITTED

Under Ruling Made by the Provost General Marshal Those Who Registered Thursday Will Not Have Enlistment or Induction Privilege.

Local boards for Division No. 1 and 2 of Ulster county received a telegram today from the adjutant general stating the boards would not be allowed to give certificates for enlistment to the men of second registration.

This is a radical change from the former rule of the first lot of registrants, for under the rule then, men could enlist in the navy or marine corps or be inducted under special calls, with the permission of the boards, providing the granting of the privilege to the men did not interfere with the quotas that the boards had to provide.

Under this new ruling, which applies only to the men of the second registration, these men who registered Thursday will be held for draft only, and cannot enlist in the navy or marine corps, or be inducted under any special call.

Officials of the local boards stated that although they had no more definite information than that contained in the telegram, they thought that this was probably a temporary ruling to be in effect until the new registrants had been classified by the government.

The telegram is as follows: "The provost general marshal directs that under date of June 6, no certificates of enlistment are to be issued by local boards under section one fifty one, paragraph A, in favor of men of second registration or individual induction of such men permitted until further instructions."

### Benedictine Nurses to Graduate.

The graduation of nurses from the Benedictine Sanitarium which is being arranged for by the Ladies' Auxiliary of the sanitarium, will take place on Monday evening, June 17, at St. Mary's Hall. Owing to the great war need of conservation of every sort, no printed nor engraved invitations will be sent out for the graduation, but the public is heartily cordially invited to be present on this important occasion. The full program will be announced in a later issue of The Freeman. The committee having the graduation in charge is composed of Miss Rosekrans, Dr. Mary Gage-Day, Miss Jeanette Farrell, Mrs. Mark O'Meara, Mrs. N. D. J. Murphy, Mrs. Walter Pales and Mrs. E. T. ### Allege Misuse of R. R. Tickets.

Twenty-seven Newburgh men and women have been summoned to appear in the United States district court in New York before June 23 to

file answers in a suit brought against them by the New York Central for alleged misuse of commutation tickets on the railroads. These tickets are purchased at a reduced rate and it is claimed they are sold by holders at \$1 a trip. The railroad complains that its loss in income as the result of the misuse of the tickets is not less than \$5,700 a year. It is said that there are at least 100 of these tickets being wrongfully used in Newburgh.

## PENROD WRITES ABOUT HIS GARDEN

By Booth Tarkington.  
Hon. Franklin K. Lane, the Secretary of the Interior, Washington:

Dear Mr. Secretary:—A kind of friend of mind told me you wrote to him to tell me to write a letter about raising vegetables to eat and all this name is Mr. Tarkington or something like that and he said he would address the letter and all and write what is at the top of this letter to start with. Well I do not know much about raising vegetables yet but I will tell all I know. Miss Spence said our class better join the U. S. School Garden Army and when she says we better why we usually we got to. Besides she said the U. S. Government says so too and it is the School Garden Army is an Army of the U. S. Government and if we belong to it we are just as much in the army as if we had guns, and will get a badge and all and besides can get some money by selling the veggie. Well, I would like to have some money and so would any other boy and girl. Besides this I would do it anyway because if I am in the U. S. S. G. I am in the Army and have a badge. And I can eat some of the veggie myself and all. Well anybody wants to be in the army of course, so I am now a going to be a member of the army. Anybody what says I am not going to be ask whoever they like they will tell them quick enough I am going to be in the Army because I am going to be in the U. S. S. G. Army. It has the U. S. before it and I guess that is enough for me I guess. Well so we thought we better get some practice raising some vegetables, so we went to Sam Williams's yard and got two colored boys so as to have them to do a good deal of the work as they have got to work almost all the time anyway at their own house. These two colored boys they used to live in the country out about five and one-half miles and they know how to raise cabaj and all.

Well, Sam said we could dig up his back yard and he would help some. We also got some seeds that we got by trading some old iron to the rag man, and we had onion seed and we had some potatoes eyes and some corn. Well, it did not look like much use. You can dig up a yard and put these things in and cover them up, and maybe put some rich dirt on top and it does not look like much use, I tell you. Well, we sat around there after school for several days, when we had put all these things in the ground we felt like we wished they would come up so we could look at them.

This is not the first time Sam and I have planted seed because I expect in our time we have planted more cherry stones and peach stones and orange seeds and lemon seeds and apple seeds and once we must have planted anyway 1,000,000 watermelon seeds in our yard but you could go to the place 1,000,000 times and look at it for a couple of hours if you wanted to but you would never see any difference. But that was when we were little and now we are going to be in the U. S. S. G. Army of course we would know better. We were little we would just as leaf do our planting in October as any other time.

Well so one morning before school Sam Williams called me to come over there and he was all hopping when I got to our farm because there was a little plant sticking up out of the ground and signs of some more coming with little leaves and all. I tell you we never did feel better than when we saw that because it was our own little plant on our own little farm and it made us feel hungry like we wanted to eat it ourselves right away but we did not because of course it would be too young and if we went and eaten it we could not sell it. Well, we were pretty glad all day and after school we sat and looked at our farm and pulled some weeds out and we could see this plant was already some bigger. Sam said it was going to be potatoes and I thought onions. Verman said corn, but he probably said that because he is longheaded and it was the easiest for him to say.

Well anyway we thought a great deal of our plant and Sam said he never did like any plant as much as he did that one and so did I because when you have raised a plant it is different from any plant. And Sam said they were coming up so fast now we would probably have 100 by tomorrow morning.

Well we did not. I went there before school next morning and Sam said look what happened and he was almost crying because this is what had come on. Well some old chickens had been there and they had scratched up our whole farm up the vile old chickens and eaten up all our seeds that had not sprouted and there was not any farm left.

Well we called the two colored boys an they were as mad as any thing but they said if they told had those chickens they knew what they would do with them and so we would begin all over again and make a new farm, because the spring was early yet and if those chickens can back well just let them try it that's all.

Well in school Miss Spence told us some more about the U. S. S. G. the Army. She said there would be directors to tell us what to do to make our little farms, and would come back where the farm was like Sam's back yard for instance sometimes, and would tell us all how to get the farm going so we can see our own vegetables coming up pretty as anything and sell them and make money and be in the Army. On the badge a captain will have three stars and if Sam is a first lieutenant he will get two stars and if Herman is a second lieutenant he will get one star and Verman will get a badge too.

So we are going to start our farm again and it is going to be a mighty good farm. She said this army was going to have 5,000,000 boys and girls, just as many as there will be soldiers in the army, and our farm is going to be the best because we have already got the experience of one farm and we would not take anything for how we felt when we saw our own plant coming up and getting ready to eat. That is a kind of a

feeling nobody knows how much excitement there is in it till you see your own plant coming up like that.

Well and so that is about all because our army is getting ready to begin and help win the war and see their own plant coming up. Well we have got some pretty good spades and hoes and rakes and trowels and we found where those vile hens came from. They belong to old Mr. Tronket lives three doors up the street from Sam so we thought we better warn this old Tronket and we wrote him a note. It said if any more vile hens found on our farm they would then be the property of a poor colored family that is in need.

So we expect there will probably be no more trouble and pretty soon some morning we will see our own plants coming up again and will all be looking at our own good old plants and wearing our badge of the U. S. S. G. Army.

Yours sincerely,

## Painless Dentistry

The difference between painless and painful dentistry depends upon the carefulness and skillfulness of the operator. With good instruments, fresh medicines, local anesthetics and nitrous oxide gas a careful and skillful dentist can perform all operations painlessly, even the extraction of teeth.

Painless methods, earnest endeavor and reasonable prices have for thirty years, made the Cady Dental Corporation the largest dental organization in New York state.

## MARINES DEFEAT GERMANY'S BEST

By Telegram to The Freeman.

London, June 7.—United States Marines threw back picked Saxon troops to a depth of three kilometers northwest of Chateau Thierry in the fighting yesterday, capturing 200 prisoners, said a Central News dispatch today.

## IN THE SERVICE OF OUR COUNTRY

Mrs. Charles Earl Sleight of Ten-Brock avenue has received word of the safe arrival of her husband overseas.

Leo P. Fennelly of 2 Crown street, has been accepted under special call No. 602, and will leave June 15th for Syracuse University to take a course in telegraphy. He will be inducted into the service by local board of Division 1 of Ulster county. Mr. Fennelly is a member of the editorial staff of the Leader.

### LOCAL DEATH RECORD.

Recent Deaths and Funerals of Persons in This Vicinity.

Anna Grigioni, wife of Augusto Grigioni, died at her home 83 German street, Wednesday morning. Besides her husband she is survived by two children. The funeral will be held from her late residence Saturday morning at 8:30 o'clock and from St. Mary's Church at 9 o'clock, where a requiem mass will be offered for the repose of her soul. Interment in St. Mary's Cemetery.

The funeral of Joseph Hasbrouck was held this afternoon at 2 o'clock from the chapel of A. Carr & Son, undertakers. The funeral was private. The Rev. C. G. Ellis, pastor of the Roundout Presbyterian Church, officiated. The bearers were Francis Waters, Jr., W. B. F. Rogers of New York city, Cornelius Treadwell, Harry Ensign, Wilson Ingalls, Harry Walker, Philip M. Herder of Philmont and Jansen Hasbrouck. Interment was in the family plot in Willetts Cemetery.

George Mullen, who resided at the home of his son on the Lippincott farm near Walkill, committed suicide at an early hour Saturday morning, June 1, by hanging himself. He had left the house in the morning but his absence was not considered unusual for a time. When search was made the body was found suspended from a tree in a woods near the house, death having evidently occurred some hours before. Mr. Mullen, who was 72 years of age, had been in poor health and it is supposed that dependency over his condition was the cause of his act. Funeral services were held on Monday at the New Prospect Church, where interment was made.

Peter Mable Johnson, a veteran of the civil war, died at his home in Middletown, Orange county, Sunday, June 2, after an illness of one week, having suffered a stroke. He was 77 years of age, having been born July 31, 1840, at Sparkill, the son of Mr. and Mrs. John V. B. Johnson. At Highland, in December, 1899, he was united in marriage with Alice Sears of Poughkeepsie, a sister of Hector Sears and Miss Carrie W. Sears of Gardiner. For the past 30 years he had resided in Middletown and had followed the occupation of a stone cutter. Mr. Johnson was a member of the First Congregational Church and of Captain Jackson Post, G. A. R. Besides his wife he is survived by the following sisters: Mary C. Pease, widow of Chauncey Pease of New York city; Ellen Jane, wife of Hiram Wallace Jessup of Pierpont; Evelyn D., widow of Newton Scott Rutter of Grandview-on-Hudson, and one brother, William Arthur Johnson, of Nyack.

### No Nutrimint in Bouillon.

Bouillon has no more nourishing qualities than hot salt water. All the nutrient is still in the meat from which the broth was made. The bouillon is a stimulant, that is all. There is no more horrible waste than to throw away a piece of meat from which broth has been made.

### DIED.

CHAMBERS—In this city, June 4, 1918, Dorinda, wife of Arker C. Chambers, aged 46 years. Funeral from the Sampsonville M. E. Church Friday at 2 p. m. Relatives and friends invited. Interment in Sampsonville cemetery.

FARNBECKER—At Port Ewen, N. Y., Tuesday, June 4, 1918, John Farnbecker in his 85th year. Funeral services will be held from his late residence in Port Ewen, Friday at 3 p. m. Relatives and friends are invited. Interment in the Port Ewen cemetery.

ROBERTS—In this city, June 5, 1918, Jacob Roberts. Funeral services at his late residence, No. 40 VanBuren street, on Friday at 4 p. m. Relatives and friends are invited. Interment in Willetts Cemetery.

REDDEN—In this city early Thursday morning, June 6, John J. Redden. Funeral from his late residence, 87 West Chester street, Monday morning at 9 o'clock, and at St. Mary's Church at 9:30 where a high mass of requiem will be offered for the repose of his soul. Interment in family plot in St. Mary's cemetery. Relatives and friends are invited to attend.

## WHEAT CROP REPORT IS GOOD

The June crop report indicates a wheat yield this year in the United States of 931,000,000 bushels, which is over 28 per cent in excess of the 1917 crop.

### SOCIETY NOTES.

On Wednesday evening Joseph Netherwood, Jr., was pleasantly surprised by a number of friends at his home, 121 Franklin street. Those present were the Misses Elizabeth Forsyth, Jeanne Martine, Margaret Van Keuren, Charlotte Markie, Tressa Nichols, Edna Boice, Grace Hoyer, and the Messrs. Richard Netherwood, Milton Budd, David Richtmyer, Charles Beeler, Preston Boice and Joseph Casey of Rhinebeck. The first part of the evening was spent in playing games, and, after refreshments were served, the young people, chartered by Mrs. Netherwood and Mr. and Mrs. Boice, set out for the carnival grounds, where the remainder of the evening was enjoyable spent. At a late hour, the guests left for home, all thanking the host for giving them such a fine time.

### Kling-Hagan.

A quiet wedding took place at the parsonage of St. James M. E. Church on Thursday afternoon when Miss Arabella Hagan of Uniontown, Penn., and Ralph Stanley Kling of Poughkeepsie, were united in marriage by the Rev. Dr. Baragwanath. Only personal friends of the bride and groom were present.

### Tomasian-Van Valkenburgh.

Private Shemer Tomasian from Camp Dix, recently returned on a week's furlough, was married to Lillie Van Valkenburgh of this city Thursday and they left on the afternoon train for a short sojourn to Lake George. Many of their friends accompanied them to the station, where they showered the bride with confetti and acclaimed their wishes for bon voyage with the display of American flags and cheers.

Bach, Festival Soloist, to Assist

### Earl Hummel.

Grace Harden, soprano, who is to assist Earl Hummel at the recital to be given by the young virtuoso at the First Presbyterian Church tonight, has received some very flattering newspaper criticisms of her singing at the recent Bach Festival at Bethlehem, Pa., one of the severest tests of any vocalist's musical merits. The Bethlehem Times on May 27th, said, "Grace Harden entered with admirable self-possession into the spirit of the music. The rich liquid tones of her voice made possible, an easy, fluent delivery of her lines. She was always mindful of the underlying sentiment, particularly in the 'Agnus Dei' in which human feeling is expressed most fervently." H. O. Osmond, assistant editor of the New York Musical Courier, writes, under date of May 30th, "Grace Harden was thoroughly satisfactory and her 'Laudamus' with its beautiful violin obligato was one of the most effective numbers of the afternoon." There were several other notices equally complimentary. A concert presenting two such artists, as Earl Hummel and Grace Harden with Mrs. Putnam Cady, as accompanist, especially this season when we have had so little of the sort of music that Kingstonians are now accustomed to, will undoubtedly fill the auditorium this evening.

### Pleasant D. A. R. Meeting.

The last-of-the-season D. A. R. meeting held at the Chapter House on Thursday afternoon was especially well attended. In the absence of the regent, Mrs. Philip Elting, the first vice-regent, Mrs. DeWitt Roosa, presided.

It was decided at the business session, not to hold any formal observance of Flag Day, but every D. A. R. member was especially urged to come to the Chapter House on Friday, June 14, and help in the work of making surgical dressings.

The chapter voted to adopt a French orphan, the fund for the support of the little charge to be raised by voluntary contributions from the chapter members not to exceed 50 cents each. It is requested that these contributions be sent to the treasurer, Mrs. Henry Van Hovenberg, within the next two weeks.

A communication was read from the Child Welfare Committee of the Woman's Branch of the Home Defense, calling attention to observance in this county as well as in the state of what will be known as "milk week," with Thursday as the zenith of the movement. On Thursday there will be in operation in the city, three milk stations, of which more will be announced later. The communication called attention to the necessity of added milk consumption, and also of ice cream, in order that milk producing animals may be raised in sufficient numbers by our producers to assure a proper and adequate milk supply for our babies a year or two from now and after the war. The chapter was asked to co-operate in the work.

In the absence of the regent, the program committee had charge of the afternoon. Every number was delightfully rendered and greatly pleased all present. The program included the following numbers: Vocal Solo, "Story of Old Glory." (Encore, "Battle Song of Liberty") Mrs. Arthur Wicks. Violin Solo, Bolero. . . . . Bohm (Encore, "Traumerel.") Prof. Harcourt. Reading, "Aunt Elvira's Here." Mrs. Alfred Van Buren. Violin Solo, "Humoresque." Dvorak Prof. Harcourt.

Mrs. Wicks was accompanied by Mrs. William Elting, while Miss Mildred Harrison accompanied Prof. Harcourt. At the close of the enjoyable program light refreshments were served. The chapter meetings will be resumed in October.

## FINANCIAL AND COMMERCIAL

By Telegram to The Freeman.

New York, June 7.—The selling movement which was in progress in the late trading yesterday had an overnight influence in bringing in a supply of stocks and at the opening of the stock market today leading issues were under pressure, sustaining losses ranging from fractions to about one point. Within a few minutes the market tone improved and rallies were in order, the supply at concessions being easily absorbed. Steel Common yielded 1 1/2 to 2 1/2, followed by a rally to 98, and other steel industrials moved in the same manner, Baldwin falling 1 1/2 to 85 1/4, with a sharp rally at the end of the first fifteen minutes. Marine Preferred, after declining 3/4 to 10 1/4, rose to 10 1/2 and Atlantic Gulf yielded 1 1/2 to 10 1/4, followed by a rally to 106. Reading moved in the same way, dropping 3/4 to 8 1/2 and rallying to 8 3/4. China Copper sold off 3/4 to 37 1/2, while Utah advanced 3/4 to 78 1/2.

There was a better demand for stocks in the afternoon with upturns in all the active issues and in a number of specialties. Studebaker became prominent, advancing 3 points to 44 1/2 on buying in large blocks. General Motors advanced to 125 against 121 1/2 earlier in the day. Marine Preferred advanced 1 1/2 to 10 1/2. The market closed irregular today; government bonds unchanged; railway and other bonds irregular.

Quotations given by C. D. Halsey & Co., 15 Broad street, New York city, branch office, Warren Building, 260-2 Fair street, Kingston, N. Y.

### IN LUCK.

First Manager—Then you had a satisfactory season?  
Second Manager—Very! Two of our most antagonistic critics died.

Gassed.  
The perfume of the wildwood flower  
Expands across the scene,  
And then is wholly smothered by  
The scent of gasoline.

A Sleepy Humorist.  
Mrs. Timmid—John, wake up!  
There's a man downstairs; I'm sure I heard a noise that sounded like a yawn.  
Husband—Oh, go to sleep. What you heard was probably the rubber plant stretching itself.

His Real Worth.  
"Did you see the widow of our late friend?"  
"Yes, but when I told her I had called to extend my condolences, she asked my congratulations instead. She had just received his insurance money."

Sad but True.  
Mrs. Hickson—Some men are so peculiar.  
Mr. Huson—How so?  
Mrs. Hickson—They would rather lose \$30 playing poker than give their wives \$10 for a new hat.

## WELL-KNOWN ATHLETES IN RANKS OF PHYSICAL DIRECTORS TO TRAIN SOLDIERS

Our men will find it easier to beat the Germans if every trooper in General Pershing's army is in the best possible physical trim. Assurances that they will be at their best and always ready to go over the top with a punch is given by these noted athletes who are going to see that they're fit.

From left to right are: William "Sparrow" Robertson, a well-known authority on sports, who is going to supervise the building of diamonds and running tracks back of the trenches for the Y. M. C. A.; Jack McGee, for years trainer at Bowdoin, will devote his time to athletics with the American expeditionary forces; Frank Quinby, another college trainer, and Dave Fultz, one-time Brooklyn National league pitcher and organizer of the Baseball Players' fraternity.

These men recently met with 130 other physical directors for instructions on their work with the American army.

## RUTH GREAT DRIVER WITH A GOLF STICK

Babe Ruth, the Red Sox pitcher, is an ardent golfer, and quite an expert one, too. Ruth is one of the hardest-hitting pitchers in the big leagues and he carries his batting punch onto the links. He was playing at Bellevue, near Boston, one day and some of the drives threatened to land in the next county, but the daddy of them all was the one he hit off the ninth tee. It is seldom that a drive carries the cross trap on this hole. The hole itself is something like 200 yards, with the trap perhaps 30 yards short of it. Babe not only carried the trap, but landed on the roof of the clubhouse, which is at least hole high. If the ball had been straight, it would have carried fully 280 yards.

## MORAN MINUS STAR BATTERY

Manager of Philadelphia National League Team Playing Without Alexander and Killifer.

Pat Moran, a former catcher, succeeded Charlie Doolin as manager of the Philadelphia Nationals in November, 1914, and won a pennant with the team in 1915. Pat is forty-two years old. He was with Montreal in 1899-1900; Boston Nationals, 1901-1905; Chicago Nationals, 1906-1909, and Philadelphia Nationals ever since. Pat caught for three pennant-winning Chicago National teams (Chance's champions). Pat's Phillies finished second to Brooklyn in 1916, and second to the New York Giants last year. The loss of the Phillies' star battery, Alexander and Killifer, sold to the Cubs last fall, will weaken the club this year.

Sister in Form.  
The great Sister is playing in old-time form. He is worth many thousands of dollars to Owner Ball of the St. Louis Browns.

Carris a Clever Catcher.  
Catcher Eddie Carris of Swarthmore is said to be a great catcher. He can throw accurately and pound the ball.

Infielder Wolfe Sold.  
Infielder Wolfe of the Pirates has been sold to the Minneapolis team of the American association.

Stallings is drawing more salary than any other National league manager except John McGraw. The latter has a whirlwind of a club, and as for the former, well, the least said is the soonest.

Having lost George Beall in the army draft, Roger Bresnahan made Hans Wagner an offer to play first base for the Toledo team, but old Hans wired back that he is out of baseball for good.

Arrangements have been made by the Brooklyn team to play a game every Sunday at the old Federal league park in Newark, N. J. One of the National league games scheduled to be played in the week will be transferred to Sunday.

### Watch Heart in Lobar Pneumonia.

Deaths of pneumonia patients are due either to heart failure or to septicemia, seldom, if ever, to insufficient aeration of the blood in the lungs, says Dr. E. P. Hershey of Denver in his prize answer to the New York Medical Journal's question, "How do you treat lobar pneumonia?"

Dr. Hershey says the heart must be watched and stimulated with digitalis. If it can be obtained the appropriate vaccine is to be used. In spite of prejudice, he recommends the ice bag. If the patient be alcoholic he must have whiskey or brandies; if not, all liquor must be cut out. A generous diet, but without meat, is necessary. Open-air treatment is conquering ancient prejudice. Sudden rise of temperature on the third, fifth or seventh day is no cause for alarm, and depressing medicines at this time may mean death.

### Army Horses Good-Tempered.

It's a weary, wicked world if you are an army horse. You may or may not approve of shoes, but you've got to have them just the same. The French authorities have an ingenious contrivance which so pinions a horse that he has absolutely nothing to say in the matter. It holds his head, and holds his feet and holds his body, and forebids him from expressing an opinion, or choosing his shoes, or making a protest in any way. If they would only let a fellow get in just one real horse-size kick one could—but what's the use. In the meantime the farther gets in his fine work, and then it is too late. Yes, it's a hard, cold, cruel world, so it is. Still, shoes are not so bad and they give a dandy left to one's hind hoofs in arguments later on in the camps.

### Shortest Railroad.

You have heard of shortest railroad before. Always they're the most abbreviated ever. But off-hand one would grant the prize to Missoula, Mont. It has a railroad only 100 feet long. It connects the Northern Pacific with the C. M. & St. P., and is used as

a transfer. It has no equipment, no employees, and no stations, yet the company that owns it gets 50 cents for every car that passes over its rails. Sixteen thousand have done so thus far. Think of it!—Popular Science Monthly.

### COMPELLED TO WORRY.

"More trouble."  
"Why, I thought you were a member of a 'don't worry' club."  
"Yes, but they fixed it so that I can't avoid worry. They made me secretary and treasurer."

That Unregulated Product.  
Mary had a little bala  
With cotton white as snow,  
And everywhere it wanted to  
The price was sure to go.

A Louder Noise.  
Williams—Do those dogs up your way still howl all night?  
Johnson—No, they have given up to disgust since the twins arrived.

Its Class.  
"Divorce is a sort of telephonic connection."  
"How so?"  
"Isn't it a ring off?"

## PORT EWN.

Port Ewn, June 7.—The Ladies' Aid Society of the Methodist Church will hold their annual strawberry social in the chapel Tuesday, June 11. An entertainment will be held in the auditorium at 8 o'clock.

Mrs. Uman Van Vleet of Broadway spent Monday in Poughkeepsie. Miss Mary Neal lost a sterling silver bar pin between the Sleighs-burgh ferry and her home on Salem street Thursday evening. Anyone finding it will confer a great favor on Miss Neal by returning it, as she values the pin very highly.

The Dorcas Society will be entertained at the home of Mrs. George T. Van Aken on Broadway this evening. A large attendance is desired.

The Dorcas Society will meet with Mrs. George T. Van Aken this evening.

## OUR DAILY PATTERN.

A Popular, Comfortable and Practical Style.

There is hardly any style so well adapted to slender figures as this one. It is easy to develop and good for any of the materials now in vogue. Broad panels, with plaits at the seams, are joined to the side fronts. A smart collar trims the "V" neck edge. The sleeve may be in wrist or elbow-length. The pattern is cut in 3 sizes: 16, 18 and 20 years. It requires 5 1/2 yards of 44 inch material for an 18 year size. The skirt measures about 2 1/2 yards at the foot.

A pattern of this illustration mailed to any address on receipt of 10 cents in silver or stamps by the Pattern Department, The Freeman, Rondout, N. Y. Be sure to state the size wanted.

**Catalogue Notice.**

**THE KITCHEN CABINET**

Every right action and true thought sets the seal of its beauty on person and face.—Ruskin.

The world is mine master which with sword will open.—Shakespeare.

**THINGS THAT HELP.**

When washing crepe waists they will keep their freshness if dipped in a rinse water of very thin starch and dried over a coat hanger.

One woman who has much flat ironing to do economizes her strength by using a large kitchen table, spreading towels bed linen and such flat pieces which may be ironed while the more particular ironing is being done.

The ironing sheet should of course be placed over these pieces, then with a little extra folding and a press or turn they are ready for clothes bars. When traveling, small boxes or pieces of pasteboard will keep waists and small articles from getting rumpled. These may be labeled, saving the opening of wrong boxes.

To removed hot-water marks from a japanned tray, try rubbing with a little sweet oil. After the marks have all disappeared, polish the tray with a little dry flour and a soft duster.

Equal parts of ammonia and turpentine will take paint out of clothing even if well dried. Saturate the spot two or three times and then wash in soapuds.

Window shades that have become cracked may be repainted with an oil paint, using care to keep them flat. Dry thoroughly and turn to give the other side of the shade a coat. Window shades are going up in price as the other household articles, so if we can renew them by such treatment it will be an economy.

When cleaning mopboards, protect the walls from careless spotting with a large piece of pasteboard, held against the wall during the process of cleaning. In these days of sugar conservation, the children will be made happy with animal crackers, dipped in various colored frostings, or a fondant may be used. A cheap and effective mixture for chapped hands is a thick paste made of lard and flour well mixed and rubbed into the hands at night. It will be well to wear gloves to protect the bedding from the fat.

Never throw water on burning oil. It only scatters it. Smolder it with anything nearest at hand, sand, earth, or even with flour.

## Weather Forecast.

Washington, June 7—Fair tonight and Saturday; cooler tonight.

## Save the Children.

With the war decimating the ranks of childhood in Europe and its shadow already touching the childhood of America as shown in a declining birth rate, the task of child saving must be undertaken with greater zeal. Such is the message of Dr. Biggs, commissioner of health, in the Child Welfare number of the Health News, which has just been issued by the state department of health.

While the infant death rate of the state of New York is among the lowest of any in the world of which we have accurate knowledge, the people of the state should not stand on this record as a whole but should better it, states the commissioner. Every child is precious to the state, and every healthy one doubly so; for just in proportion as the children of today are strong in mind and body and their number sufficient to fill the gaps made by the ravages of war, will they be able to benefit by the great sacrifices now being made by their fathers.

Ignorance and greed, continues the commissioner, are as relentless foes of childhood, as are the maddening invaders of homes, and these factors must be combated by those who assume responsibility for the community's welfare.

## New Corporation at Walkill.

A certificate of incorporation of the Walkill Dairy Co. has been filed in the county clerk's office. The company will handle, ship and sell milk, operate refrigerator and storage plants, and buy and sell timber and logs. Capital stock, \$20,000. Amount of cash to begin business, \$500. The following are the board of directors: George E. McCord, Wm. W. McElhone, Oscar S. Jansen, Nelson U. Evans, James N. Dennison, James T. Tucker and Benj. H. Decker, all residents of Walkill. The principal office will be at Walkill, N. Y.

## UNDERNEATH THE CITY HALL DOME

Nicholas McCabe, the Civil War veteran, was a happy man today for he had only been at work a short time cutting the city hall lawn with his old worn out lawn mower when his boss presented him with a brand new mower. "Look how clean it cuts," remarked McCabe, with a smile of pride as he pointed to the work he had accomplished with the mower. Attention was called to the need of a new mower on Thursday and for the first time in the history of man the city authorities moved swiftly and gave the best lawn keeper in Kingston a proper machine with which to work.

This morning the health board received a birth certificate of a youngster born on May 31, from a local physician. The receipt of the birth certificate, which was dated June 6, brought out the interesting fact that the physician is liable to a penalty imposed by the state department of health. The penalty is usually \$5 for the first offence. All birth certificates must be filed with the registrar of vital statistics under the law within five days. Death certificates must be filed within three days of the undertaker is subject to a penalty from the state department.

Thursday five more cases of measles were reported to the health board.

Officer Daun found a pocketbook containing a sum of money on Broadway near Foxhall avenue Thursday, and left the same at police headquarters. If it is not claimed within a certain length of time the money is turned into the police pension fund.

Officers Healey, Sachloff and Connelly are enjoying their annual vacations.

The rain fall of the night and early morning was welcomed by the gardeners of the police force, as well as others who have gardens.

It was also welcomed by downtown business men, for it helped to lay the dust on the brick pavement, which has not been flushed in weeks.

## LATTINGTOWN.

Lattintown, June 6.—Wednesday night of last week a much needed rain fell in this neighborhood.

The Liberty bond raising in Milton and Highland was higher by a few thousand than given in former issues.

The thermometer stood nearly 100 in the shade here last Saturday.

Strawberries are getting ripe in this neighborhood. Some early ones brought \$8 per crate in Marlborough.

Currants are not a full crop in any section this year.

The district school closed here last Tuesday.

Measles have been in this vicinity but in rather light form, some claiming the substitutes in flour caused it.

L. W. Craft has hired the two large fields of the Ruger farm and planted them in corn.

Mr. and Mrs. Relyea and Mrs. M. Denman and Miss E. Denman, her daughter, and another lady have motored from Newburgh to Mr. and Mrs. E. Reynolds for an evening call.

No pickers have arrived as yet in this section.

James Weed, the proprietor of the Overlook House, will keep boarders this season.

Several from this place attended Memorial services held in Milton, Marlborough or Poughkeepsie.

Miss Cora Mackey is taking a business course in Eastman's College, Poughkeepsie.

Mrs. L. W. Craft and Mrs. Segal are visiting relatives at Bay Ridge, N. Y.

For the first time in a quarter of a century there were not enough of citizens present at the Tuesday school meeting here to have one. Now what is to be done is up to the school authorities at Albany.

## STONE RIDGE.

Stone Ridge, June 6.—Beginning with Tuesday afternoon, June 11, the Stone Ridge Library will be open on Tuesday afternoon from 3 to 5 o'clock instead of Saturday afternoon.

At a recent meeting of the Stone Ridge Red Cross Society it was decided to support a war baby. This cost \$36.50.

Anyone in the town wishing to help with this worthy cause will kindly bring or send their contribution to the Grange Hall on Friday afternoons or at any other time the money may be handed to Mrs. Milton Elmendorf.

## MORAN BUSINESS SCHOOL.

War Conditions Create Increased Demand For Its Graduates.

Following is a continuation of the list of members of the class of 1918, Moran Business School, who have accepted desirable positions:

Miss Loretta Finerty of No. 17 Rogers street, has been placed as stenographic clerk with the Universal Road Machinery Company, this city, through the Moran Business Service Bureau.

Arthur McGuire of the bookkeeping department, has accepted a good position in the office of the National Biscuit Company, this city.

Miss Emily Nock of the combined course, has been placed as bookkeeper and stenographer with Charles J. Michaud, general contractor, this city, through the Service Bureau.

Swift & Company of Chicago have engaged M. C. Martin of the Moran School in the capacity of bookkeeper and cashier in their New York office.

In letters addressed to the principal, the Misses Frances M. Costello and Ella Delaney, class of 1918, report success and contentment in their first business positions. Miss Costello is employed in the accounting department of the Remington Arms Company, Bridgeport, Conn.; Miss Delaney is stenographic clerk in the home office of the Prudential Insurance Company, Newark, N. J.

E. L. Myron, who left recently for New York city, writes that he has secured a very satisfactory position with W. R. Grace & Company, Hancock Square.

For many months past it has been impossible to keep pace with the demand for young men. There is every inducement for girls and boys to master stenography, bookkeeping and typewriting. The need is greater and salaries are higher than ever.

## U. S. Exam. June 14.

Many students of the Moran School are preparing for the United States civil service examination for clerk with knowledge of stenography or typewriting. The next examination will be conducted at the court house on Friday, June 14. The civil service commission has announced that "there is now practically no limit to the number of stenographers and typists the government needs, and there is no present prospect that the demand will be materially less at an early date."

## WEST HURLEY.

There will be a conservation meeting in the church Tuesday evening, June 18. There will be two prominent speakers and Miss Lillian Stuart of the Farm Bureau will give a talk, illustrated with lantern slides. We think this will be very interesting and hope there will be a large crowd.

Mrs. Abram Dumond of Hurley has been visiting her friends in this place for several days.

Frank Kellerhouse is spending a few days with his son in Grand Gorge.

We are very sorry to hear that Miss Letta Allen, who has been very sick for several weeks, does not seem to gain.

The Children's Day exercises will be held in the church on Sunday evening, June 16, at 8 o'clock.

At the school meeting held on Tuesday evening of this week Harvey White was re-elected school trustee for the coming year.

Picking strawberries and fishing is the order of the day. Mrs. Ina Saxe takes the lead in fishing, having caught a pickerel which weighed 3½ pounds.

Mrs. Luther Dibble of Prattsville, N. Y., was a guest at the home of Wesley Mosher Sunday night.

**READY  
for the Brush!**

**DUTCH BOY  
LIQUID LEAD**

**The Oldest Paint  
in the Newest Form**

Dutch Boy Liquid Lead is a new and convenient  
form of pure, reliable white-lead, ready-mixed for  
the painter's brush. For all outdoor work. Cheap-  
est per square foot. Wears down so evenly that no  
expensive and dangerous burning-off is necessary  
when repainting is finally advisable.

For interiors—soft-tinted walls—use Dutch Boy  
Flat Wall Paint. Ready-mixed, the painter likes its  
convenience. Gives a dull-toned surface, which  
washes like tile.

Manufactured by NATIONAL LEAD COMPANY

## BIG SCOUT RALLY IN KINGSTON

Kingston is to be the scene of one of the biggest Scout Rallies ever seen in the Hudson valley, as it will include troops from the entire Hudson valley, and if the weather is favorable it is expected that there will be some 500 Scouts in Kingston on the evening of July 3rd and on July 4th.

This big rally, with the camp of the evening before the Fourth, will be held in Forsyth Park, and will offer a sight long to be remembered, and one that will be especially impressive these war times. It was voted at the council meeting of Kingston Scouts, held this week, to hold this rally, and to make it big enough to include, not one or two counties, but the entire Hudson river section. Forsyth Park, which covers considerably more ground than is often realized, offers an admirable site for the over-night camp. There is ample space for all necessary tents, and visiting troops will be urged to send their tents here two or three days before the rally in order that they may be up and ready for the Scouts on arrival. The council is also asking those people in Kingston who have tents that they can loan, to loan them to the Scouts, so that every troop, coming to the city, besides our own boys, may surely be under cover for the night. At the present writing a big pit has been dug in one corner of the park site, later to be made into a sand pit, and this spot will be used for the cooking fires and also for the big camp fire, thus insuring perfect safety from any spread of fire.

That the hospitality of the Kingston Scouts may be as complete as cordial, everything will be done to care for the comfort and safety of the visiting lads, as will be seen by the following officers and directors who will have charge of the undertaking.

Director of the Rally, Scout Executive Soles.  
Officer of the Day (general hospitality), Scoutmaster Arthur Cole.  
Director of the Program, Scout Master Winfield S. Stinson of Troy, Rhinebeck and Red Hook.  
Grand Marshal for big Fourth of July Parade, Boy Scout Division, Sergeant George Whittaker.  
Director of Hospital Tent, Dr. Henry Van Hovenberg, assisted by Assistant Scout Master W. W. Brady, Jr., specialist in Scout First Aid.  
Director of Sanitation, Fred M. Dressel.  
Directors of Publicity, E. F. MacFadden and A. Cohen.  
Officers of Commissary Department, H. Bircher.  
Official Photographer, W. H. Fuller.

The judges appointed to award the prize for the best troop in the Fourth of July parade will be Rear Admiral Francis J. Higginson, the Hon. Joseph M. Fowler, D. B. G. and Captain Everett Fowler.

The judges for the various contests will be visiting Scout officials. Scout Master E. N. Palen will have charge of Troop 5, this city, until such time as a new rector is called to St. John's Episcopal Church.

The Kingston men who contributed to the prizes to be awarded for the parade and contests were Mayor Palmer Campbell, Jr., Senator Walton, President E. H. Bogart of the Kingston Scout organization, Scout Commissioner A. Freeman, vice-president, C. A. Warren, and Scout Master E. N. Palen.

The entire program from the time that the Scouts arrive about 2:30 on the afternoon of July 3rd, until they leave on the evening of the Fourth will be most interesting and to much of the exercises the public will be invited. The full general program and a statement of many more interesting details relative to the rally will appear in tomorrow evening's issue of The Freeman.

This big rally will offer the best possible opportunity for Kingstonians to see at first hand what Scouting really is and may be.

Company M at Rifle Range.

Company M left the armory this morning at 7 o'clock for Mutton Hollow, where they will spend the day at the rifle range. The trip was made by stage. Majors Parish and Kimble of the state ordnance department accompanied the soldiers and will make an inspection of the company.

Value of Common Things.

The common things of life are things well worth while when we know what to do with them. It was a glimpse of a bird that he had never seen before, but which he might have seen a thousand times so common was it, that made a foremost nature writer out of Bradford Torrey.

## ENLISTMENT IS NOT PERMITTED

Under Ruling Made by the Provost General Marshal Those Who Registered Thursday Will Not Have Enlistment or Induction Privilege.

Local boards for Division No. 1 and 2 of Ulster county received a telegram today from the adjutant general stating the boards would not be allowed to give certificates for enlistment to the men of second registration.

This is a radical change from the former rule of the first lot of registrants, for under the rule then, men could enlist in the navy or marine corps or be inducted under special calls, with the permission of the boards, providing the granting of the privilege to the men did not interfere with the quotas that the boards had to provide.

Under this new ruling, which applies only to the men of the second registration, these men who registered Thursday will be held for draft only, and cannot enlist in the navy or marine corps, or be inducted under any special call.

Officials of the local boards stated that although they had no more definite information than that contained in the telegram, they thought that this was probably a temporary ruling to be in effect until the new registrants had been classified by the government.

The telegram is as follows: "The provost general marshal directs that under date of June 6, no certificates of enlistment are to be issued by local boards under section one of the act, paragraph A, in favor of men of second registration or individual induction of such men permitted until further instructions."

### Benedictine Nurses to Graduate.

The graduation of nurses from the Benedictine Sanitarium which is being arranged for by the Ladies' Auxiliary of the sanitarium, will take place on Monday evening, June 17, at St. Mary's Hall. Owing to the great war need of conservation of every sort, no printed nor engraved invitations will be sent out for the graduation, but the public is herewith cordially invited to be present on this important occasion. The full program will be announced in a later issue of The Freeman. The committee having the graduation in charge is composed of Miss Rosekrans, Dr. Mary Gage-Day, Miss Jeannette Farrell, Mrs. Mark O'Meara, Mrs. N. D. J. Murphy, Mrs. Walter Fales and Mrs. E. T. Shullis.

Church. The charming exercises were held on the spacious lawn, and were in charge of Mrs. Mary Fisk Park of New York city. The girls gave proof of the careful training in the school. Dr. T. H. Baragwanath spoke for the ministry and W. F. Dedrick, both of this city, spoke for the laymen. There were between twenty and thirty present from Kingston, twenty of this number being from St. James's Church. Several of the Queen Esther Circle were interested guests. The offering taken at the time amounted to \$350.

### Allege Misuse of R. R. Tickets.

Twenty-seven Newburgh men and women have been summoned to appear in the United States district court in New York before June 23 to

file answers in a suit brought against them by the New York Central for alleged misuse of commutation tickets on the railroads. These tickets are purchased at a reduced rate and it is claimed they are sold by holders at \$1 a trip. The railroad complains that its loss in income as the result of the misuse of the tickets is not less than \$5,700 a year. It is said that there are at least 100 of these tickets being wrongfully used in Newburgh.

### Benson Back on Job.

F. A. Benson, who started with Armour & Company seventeen years ago in this district as general handy man in the branch house at Newark, N. J., has come back to his old home district as superintendent of the

Armour interests. He succeeds Urban P. Adams who has been transferred to Jacksonville, Florida. Mr. Benson's duties will require him to visit Kingston for several days every month.

## LOCAL DEATH RECORD.

Recent Deaths and Funerals of Persons in This Vicinity.

Anna Grigioni, wife of August Grigioni, died at her home 53 Gorman street, Wednesday morning. Besides her husband she is survived by two children. The funeral will be held from her late residence, Saturday morning at 8:30 o'clock and from St. Mary's Church at 9 o'clock where a requiem mass will be offered for the repose of her soul. Interment in St. Mary's Cemetery.

The funeral of Joseph Hashbrouck was held this afternoon at 2 o'clock from the chapel of A. Carr & Son, undertakers. The funeral was private. The Rev. C. G. Ellis, pastor of the Roundout Presbyterian Church, officiated. The bearers were Francis Waters, Jr., W. B. F. Rogers of New York city, Cornelius Treadwell, Harry Ensign, Wilson Ingalls, Harry Walker, Philip M. Herder of Philadelphia and James Hashbrouck. Interment was in the family plot in Wiltwyck Cemetery.

George Mullen, who resided at the home of his son on the Lippincott farm near Wallkill, committed suicide at an early hour Saturday morning, June 1, by hanging himself. He had left the house in the morning but his absence was not considered unusual for a time. When search was made the body was found suspended from a tree in a woods near the house, death having evidently occurred some hours before. Mr. Mullen, who was 73 years of age, had been in poor health and it is supposed that depression over his condition was the cause of his act. Funeral services were held on Monday at the New Prospect Church, where interment was made.

Peter Mahle Johnson, a veteran of the civil war, died at his home in Middletown, Orange county, Sunday, June 2, after an illness of one week, having suffered a stroke. He was 77 years of age, having been born July 31, 1840, at Soarville, the son of Mr. and Mrs. John V. B. Johnson. At Highland, in December, 1859, he was united in marriage with Alice Sears of Pethbridge, a sister of Hector Sears and Miss Carrie W. Sears of Gardiner. For the past 30 years he had resided in Middletown and had followed the occupation of a stone cutter. Mr. Johnson was a member of the First Congregational Church and of Captain Jackson Post, G. A. R. Besides his wife he is survived by the following sisters, Mary C. Pease, widow of Chauncey Pease of New York city; Ellen Jane, wife of Braham Wallace Jessup of Pierpont; Evelyn D., widow of Newton Scott Rutter of Grandview-on-Hudson, and one brother, William Arthur Johnson, of Nyack.

No Nutrient in Bouillon.  
Bouillon has no nourishing qualities than hot salt water. All the nutrient is still in the meat from which the broth was made. The bouillon is a stimulant, that is all. There is no more horrible waste than to throw away a piece of meat from which broth has been made.

## DIED.

CHAMBERS—In this city, June 4, 1918, Dorinda, wife of Arker C. Chambers, aged 46 years.

## WHEAT CROP REPORT IS GOOD

The June crop report indicates a wheat yield this year in the United States of 931,000,000 bushels, which is over 25 per cent in excess of the 1917 crop.

## SOCIETY NOTES.

On Wednesday evening Joseph Neiderwood, Jr., was pleasantly surprised by a number of friends at his home, 121 Franklin street, those present were the Messrs. Elizabeth Forsyth, Jennie Matine, Margaret Van Keuren, Charles Markie, Teresa Nichols, Edna Boice, Grace Hoover, and the Messrs. Richard Neiderwood, Milton Budd, David Ruckmyer, Charles Beeler, Preston Boice and Joseph Casev of Rhinebeck. The first part of the evening was spent in playing games, and, after refreshments were served, the young people, chaperoned by Mrs. Neiderwood and Mr. and Mrs. Boice, set out for the carnival grounds, where the remainder of the evening was enjoyable spent. At a late hour the guests left for home all thanking the host for giving them such a fine time.

## Klinz-Hagan.

A quiet wedding took place at the Grigioni, died at her home 53 Gorman street, Wednesday afternoon when Miss Arabelle Hagan of Linton, Penn., children. The funeral will be held from her late residence, Saturday morning at 8:30 o'clock and from St. Mary's Church at 9 o'clock where a requiem mass will be offered for the repose of her soul. Interment in St. Mary's Cemetery.

## Tomasian-Valkenburgh.

Private Shomer Tomasian from Camp Dix, recently returned on a week's furlough, was married to Lillie Van Valkenburgh of this city Thursday and they left on the afternoon train for a short sojourn to Lake George. Many of their friends accompanied them to the station, where they showed the bride with confetti and acclaimed their wishes for bon voyage with the display of American flags and cheers.

## Buch, Festival Soloist, to Assist Earl Hummel.

Grace Harden, contralto, who is to assist Earl Hummel at the recital to be given by the young virtuoso at the First Presbyterian Church tonight, has received some very flattering newspaper criticism of her singing at the recent Buch Festival at Bethlehem, Pa., one of the severest tests of any vocalist's musical merits. The Bethlehem Times on May 27th, said, "Grace Harden entered with admirable self-possession into the spirit of the music. The rich liquid tones of her voice made possible, an easy, fluent delivery of her songs. She was always mindful of the underlying sentiment, particularly in the 'Agnus Dei' in which human feeling is expressed most fully." H. O. Osmond, assistant editor of the New York Musical Courier, writes under date of May 30th, "Grace Harden was thoroughly satisfactory and her 'Laudamus te' with its beautiful violin obbligato was one of the most effective numbers of the afternoon." There were several other notices equally complimentary. A concert presenting two such artists, as Carl Hummel and Grace Harden with Mrs. Putnam Cady, as accompanist, especially this season when we have had so little of the sort of music that Kingstonsians are now accustomed to, will undoubtedly fill the auditorium this evening.

## Pleasant D. A. R. Meeting.

The last-of-the-season D. A. R. meeting held at the Chapter House on Thursday afternoon was especially well attended. In the absence of the recent Mrs. Philip Elting, the first vice-regent, Mrs. DeWitt Roosa presided.

It was decided at the business session, not to hold any formal observance of Flag Day, but every D. A. R. member was especially urged to come to the Chapter House on Friday, June 14, and help in the work of making surgical dressings.

The chapter voted to adopt a French orphan, the fund for the support of the little charge to be raised by voluntary contributions from the chapter members not to exceed 50 cents each. It is requested that these contributions be sent to the treasurer, Mrs. Henry Van Hovenberg, within the next two weeks.

A communication was read from the Woman's Branch of the Home Defense, calling attention to observance in this county as well as in the state of what will be known as "milk" week, with Thursday as the zenith of the movement. On Thursday there will be in operation in the city, three milk stations, of which more will be announced later. The communication called attention to the necessity of added milk consumption, and also of ice cream, in order that milk-producing animals may be raised in sufficient numbers by our producers to assure a proper and adequate milk supply for our babies a year or two from now and after the war. The chapter was asked to co-operate in the work.

In the absence of the regent, the program committee had charge of the afternoon. Every number was delightfully rendered and greatly pleased all present. The program included the following numbers:

Vocal Solo, "Story of Old Glory." (Encores, "Battle Song of Liberty") Mrs. Arthur Wicks.  
Violin Solo, Bolero, Bohm (Encores, "Tramontana") Prof. Harcourt.  
Reading, "Ann Elmore's Here" Mrs. Alfred Van Buren.  
Violin Solo, "Mazurka," Drorak Prof. Harcourt.

Mrs. Wicks was accompanied by Mrs. William Elting, while Miss Mildred Harrison accompanied Prof. Harcourt. At the close of the enjoyable program light refreshments were served. The chapter meetings will be resumed in October.

## FINANCIAL AND COMMERCIAL

By Telegraph to The Freeman.  
New York, June 7.—The selling movement which was in progress in the late trading yesterday had an overnight influence in bringing in a supply of stocks and at the opening of the stock market today leading issues were under pressure, sustaining losses ranging from fractions to about one point. Within a few minutes the market tone improved and rallies were in order, the supply at concessions being easily absorbed. Steel Common steels 1 1/2 to 5 1/2, followed by a rally to 3 1/2, and other steel industrials moved in the same manner. Baldwin falling 1 1/2 to 8 1/2, with a sharp rally at the end of the first fifteen minutes. Marine Preferred, after declining 1/4 to 10 1/2, rose to 10 3/4 and Atlantic Gulf yielded 1 1/2 to 10 3/4, followed by a rally to 10 1/2. Reading moved in the same way, dropping 1/4 to 8 1/2, and rallying to 8 3/4. China Copper sold off 1/4 to 37 1/2, while Utah advanced 1/4 to 7 1/2.

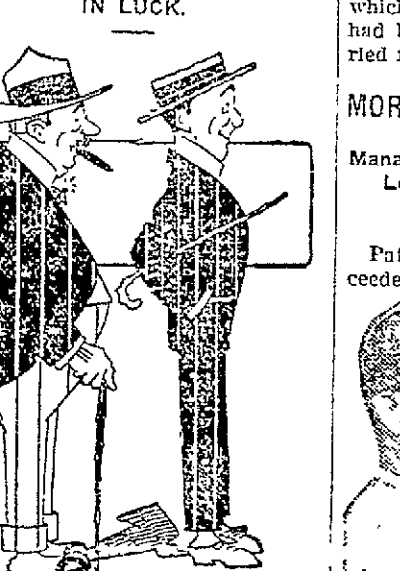

There was a better demand for stocks in the afternoon with upticks in all the active issues and in a number of specialties. Studebaker became prominent, advancing 3 points to 4 1/2, on buying in large blocks. General Motors advanced to 12 1/2 against 12 1/4 earlier in the day. Marine Preferred advanced to 10 1/2. The market closed irregular today, government bonds unchanged; railway and other bonds irregular.

## IN LUCK.

First Manager—Then you had a satisfactory season?  
Second Manager—Very! Two of our most antagonistic critics died.

Gassed.  
The perfume of the wild-wood flower  
Expands across the scene,  
And then it's wholly smothered by  
The scent of gasoline.

A Sleepy Humorist.  
Mrs. Timmild—John, wake up!  
There's a man downstairs. I'm sure I heard a noise that sounded like a fawn.

Husband—Oh, go to sleep. What you heard was probably the rubber plant stretching itself.

His Real Worth.  
"Did you see the widow of our late friend?"  
"Yes, but when I told her I had called to extend my condolences, she asked my congratulations instead. She had just received his insurance money."

Sad but True.  
Mrs. Hickson—Some men are so peculiar.

Mr. Huson—How so?  
Mrs. Hickson—They would rather lose \$30 playing poker than give their wives \$10 for a new hat.

## WELL-KNOWN ATHLETES IN RANKS OF PHYSICAL DIRECTORS TO TRAIN SOLDIERS

Our men will find it easier to beat the Germans if every trooper in General Pershing's army is in the best possible physical trim. Assurances that they will be at their best and always ready to go over the top with a punch is given by these noted athletes who are going to see that they're fit.

From left to right are: William "Sparrow" Robertson, a well-known authority on sports, who is going to supervise the building of diamonds and running tracks back of the trenches for the Y. M. C. A.; Jack McGee, for years trainer at Bowdoin, will devote his time to athletics with the American expeditionary forces; Frank Quibby, another college trainer, and Dave Fultz, one-time Brooklyn National league pitcher and organizer of the Baseball Players' fraternity.

These men recently met with 130 other physical directors for instructions on their work with the American army.

## RUTH GREAT DRIVER WITH A GOLF STICK

Babe Ruth, the Red Sox pitcher, is an ardent golfer, and quite an expert one, too. Ruth is one of the hardest-hitting pitchers in the big leagues and he carries his batting punch onto the links. He was playing at Bellevue, near Boston, one day and some of the drives threatened to land in the next county but the daddy of them all was the one he hit off the ninth tee.

It is seldom that a drive carries the cross trap on this hole. The hole itself is something like 260 yards, with the trap perhaps 30 yards short of it. Babe not only carried the trap, but landed on the roof of the clubhouse, which is at least hole high. If the ball had been straight, it would have carried fully 250 yards.

## MORAN MINUS STAR BATTERY

Manager of Philadelphia National League Team Playing Without Alexander and Kilfler.

Pat Moran, a former catcher, succeeded Charlie Doolin as manager of the Philadelphia Nationals in November, 1914, and won a pennant with the team in 1915. Pat is forty-two years old. He was with Montreal in 1890-1900; Boston National's, 1901-1907; Chicago Nationals, 1906-1909, and Philadelphia Nationals ever since. Pat caught for three pennant-winning Chicago National teams (Chance's champions). Pat's Phillies finished second to Brooklyn in 1916, and second to the New York Giants last year. The loss of the Phillies' star battery, Alexander and Kilfler, sold to the Cubs last fall, will weaken the club this year.

Sister in Form.  
The great Sister is playing in old-time form. He is worth many thousands of dollars to Owner Ball of the St. Louis Browns.

Carris a Clever Catcher.  
Catcher Eddie Carris of Swarthmore is said to be a great catcher. He can throw accurately and pound the ball.

Infielder Wolfe Sold.  
Infielder Wolfe of the Pirates has been sold to the Minneapolis team of the American association.

Stallings is drawing more salary than any other National league manager except John McGraw. The latter has a whirlwind of a club, and as for the former, well, the least said is the better.

Having lost George Beall in the army draft, Roger Bresnahan made Hans Wagner an offer to play first base for the Toledo team, but old Hans wired back that he is out of baseball for good.

Arrangements have been made by the Brooklyn team to play a game every Sunday at the old Federal league park in Newark, N. J. One of the National league games scheduled to be played in the week will be transferred to Sunday.

## GREAT BASE RUNNING

Arthur Fletcher, by fast sprinting and keen judgment, achieved a feat seldom accomplished in baseball in a recent game at the Polo Grounds between the Giants and Braves by scoring from first base on a single to center field by Lew McCarty. After Larry Doyle had popped to Herzog, Fletcher snagled to deep center, after which Powell made a great catch of Holke's long drive. On the next play McCarty dropped a hit in center field between Powell and Wickland and Fletcher, who started with the pitcher's throw, scored all the way from first. It was a great piece of base running, the equal of which seldom has been seen on any ball field in the major leagues.

## DIAMOND NOTES

Manager Clark Griffith is hard put for catching material.

Urban Faber of the White Sox has passed the physical examination and awaits his call.

Dick Ching, Mobile pitcher, is not a Chinaman as his name might indicate, but he has tricks.

Jack O'Toole, veteran Southern league umpire, has been laid up with an attack of rheumatism.

Ralph Craig, who played the outfield for Peoria last season, has been taken on by the Sioux City club.

Chick Gandil, though still somewhat decrepit in the legs, is going good for the White Sox, particularly with the bat.

The award by the national board of Pitcher Pepper Clark to Des Moines was a life saver to Jack Coffey, who was hard up for pitchers.

President Hickey's rules against freak pitching are clear enough and as the decision is up to the umpires there should be few controversies.

Portland fans have taken a great liking to Bill Fieberhor, the first baseman secured from Salt Lake City, and are praising him to the skies.

The Minneapolis club has released a number of players to St. Joseph of the Western league and these clubs presumably will work together during the season in exchange of players.

The St. Louis Cardinals seem to have about made the Little Rock pitching staff when they sent Murchison and Turo to Kid Elbertel, to say nothing about returning Hank Robinson.

Stallings is drawing more salary than any other National league manager except John McGraw. The latter has a whirlwind of a club, and as for the former, well, the least said is the better.

Shortest Railroad.  
You have heard of shortest roads before. Always there're the most abbreviated ever. But off-hand one would grant the prize to Missoula, Mont. It has a railroad only 169 feet long. It connects the Northern Pacific with the C. M. & St. P., and is used as

Watch Heart in Lobar Pneumonia.  
Deaths of pneumonia patients are due either to heart failure or to septicemia, seldom, if ever, to insufficient aeration of the blood in the lungs, says Dr. E. P. Hershey of Denver in his prize answer to the New York Medical Journal's question, "How do you treat lobar pneumonia?"

Dr. Hershey says the heart must be watched and stimulated with digitalis. If it can be obtained the appropriate vaccine is to be used. In spite of prejudice, he recommends the ice bag. If the patient be alcoholic he must have whiskey or brandies; if not, alcohol must be cut out. A generous diet, but without meat, is necessary. Open-air treatment is conquering ancient prejudice. Sudden rise of temperature on the third, fifth or seventh day is no cause for alarm, and depressing medicines at this time may mean death.

Army Horses Good-Tempered.  
It's a weary, wicked world if you are an army horse. You may or may not approve of shoes, but you've got to have them just the same. The French authorities have an ingenious contrivance which so pinions a horse that he has absolutely nothing to say in the matter. It holds his head, and holds his feet and holds his body, and forcibly prevents him from expressing an opinion, or choosing his shoes, or making a protest in any way. If they would only let a fellow get in just one real horse-size kick one could—but what's the use. In the meantime the farther gets in his fine work, and then it is too late. Yes, it's a hard, cold, cruel world, so it is. Still, shoes are not so bad and they give a dandy left to one's hind hoofs in arguments later on in the camps.

That Unregulated Product.  
Mary had a little bale  
With cotton white as snow,  
And everywhere it wanted to  
The price was sure to go.

A Louder Noise.  
Williams—Do those dogs up your way still howl all night?  
Johnson—No, they have given up in disgust since the twins arrived.

## Save the Children.

With the war decimating the ranks of childhood in Europe and its shadow already touching the childhood of America as shown in a declining birth rate, the task of child saving must be undertaken with greater zeal. Such is the message of Dr. Riggs, commissioner of health, in the Child Welfare number of the Health News, which has just been issued by the state department of health.

While the infant death rate of the state of New York is among the lowest of any in the world of which we have accurate knowledge, the people of the state should not stand on this record as a whole but should better it, states the commissioner. Every child is precious to the state, and every healthy one doubly so; for just in proportion as the children of today are strong in mind and body and their number sufficient to fill the gaps made by the ravages of war, will they be able to benefit by the great sacrifices now being made by their fathers.

Ignorance and greed, continues the commissioner, are as relentless foes of childhood, as are the maddening invaders of homes, and these factors must be combated by those who assume responsibility for the community's welfare.

## UNDERNEATH THE CITY HALL DOME

Nicholas McCabe, the Civil War veteran, was a happy man today for he had only been at work a short time cutting the city hall lawn with his old worn out lawn mower when his boss presented him with a brand new mower. "Look how clean it cuts," remarked McCabe, with a smile of pride as he pointed to the work he had accomplished with the mower. Attention was called to the need of a new mower on Thursday and for the first time in the history of man the city authorities moved swiftly and gave the best lawn keeper in Kingston a proper machine with which to work.

This morning the health board received a birth certificate of a youngster born on May 31, from a local physician. The receipt of the birth certificate, which was dated June 6, brought out the interesting fact that the physician is liable to a penalty imposed by the state department of health. The penalty is usually \$5 for the first offence. All birth certificates must be filed with the registrar of vital statistics under the law within five days. Death certificates must be filed within three days or the undertaker is subject to a penalty from the state department.

Thursday five more cases of measles were reported to the health board.

Officer Daun found a pocketbook containing a sum of money on Broadway near Foxhall avenue Thursday, and left the same at police headquarters. If it is not claimed within a certain length of time the money is turned into the police pension fund.

Officers Healey, Sachloff and Connolly are enjoying their annual vacations.

The rain fall of the night and early morning was welcomed by the gardeners of the police force, as well as others who have gardens.

It was also welcomed by downtown business men, for it helped to lay the dust on the brick pavement, which has not been flushed in weeks.

## LATTINGTOWN.

Lattintown, June 6.—Wednesday night of last week a much needed rain fell in this neighborhood.

The Liberty bond raising in Milton and Highland was higher by a few thousand than given in former issues.

The thermometer stood nearly 100 in the shade here last Saturday.

Strawberries are getting ripe in this neighborhood. Some early ones brought \$8 per crate in Marlborough.

Currents are not a full crop in any section this year.

The district school closed here last Tuesday.

Hustles have been in this vicinity but in rather light form, some claiming the substitutes in flour caused it.

L. W. Craft has hired the two large fields of the Ruger farm and planted them in corn.

Mr. and Mrs. Relyea and Mrs. M. Decker and Mrs. G. Decker, are daughter, and another lady have motored from Newburgh to Mr. and Mrs. E. Reynolds' for an evening call.

No pickers have arrived as yet in this section.

James Weed, the proprietor of the Overlook House, will keep boarders this season.

Several from this place attended Memorial services held in Milton, Marlborough or Poughkeepsie.

Miss Cora Mackay is taking a business course in Eastman's College, Poughkeepsie.

Mrs. L. W. Craft and Mrs. Segal are visiting relatives at Bay Ridge, N. Y.

For the first time in a quarter of a century there were not enough of citizens present at the Tuesday school meeting here to have one. Now what is to be done is up to the school authorities at Albany.

## STONE RIDGE.

Stone Ridge, June 6.—Beginning with Tuesday afternoon, June 11, the Stone Ridge Library will be open on Tuesday afternoon from 3 to 5 o'clock instead of Saturday afternoon.

At a recent meeting of the Stone Ridge Red Cross Society it was decided to support a war baby. This costs \$26.50. Anyone in the town wishing to help with this worthy cause will kindly bring or send their contribution to the Grange Hall on Friday afternoons or at any other time the money may be handed to Mrs. Milton Elmendorf.

MORAN BUSINESS SCHOOL.

War Conditions Create Increased Demand For Its Graduates.

Following is a continuation of the list of members of the class of 1918.

Moran Business School, who have accepted desirable positions:

Miss Loretta Finerty of No. 17 Rogers street, has been placed as stenographic clerk with the Universal Road Machinery Company, this city.

Arthur McGuire of the bookkeeping department, has accepted a position in the office of the National Biscuit Company, this city.

Miss Emily Nock of the combined course, has been placed as bookkeeper and stenographer with Charles I. Michaud, general contractor, this city, through the Service Bureau.

Swift & Company of Chicago have engaged M. C. Martin of the Moran School in the capacity of bookkeeper and cashier in their New York office.

In letters addressed to the principal, the Misses Frances M. Costello and Ella Delaney, class of 1918, report success and contentment in their first business positions.

Miss Costello is employed in the accounting department of the Remington Arms Company, Bridgeport, Conn.

Miss Delaney is stenographic clerk in the home office of the Prudential Insurance Company, Newark, N. J.

E. L. Moyron, who left recently for New York city, writes that he has secured a very satisfactory position with W. R. Grace & Company, Hancock Square.

For many months past it has been impossible to keep pace with the demand for young men. There is every inducement for girls and boys to master stenography, bookkeeping and typewriting. The need is greater and salaries are higher than ever.

U. S. Exam. June 14.

Many students of the Moran School are preparing for the United States civil service examination for clerk with knowledge of stenography or typewriting. The next examination will be conducted at the court house on Friday, June 14. The civil service commission has announced that there is now practically no limit to the number of stenographers and typists the government needs, and there is no present prospect that the demand will be materially less at an early date.

WEST HURLEY.

There will be a conservation meeting in the church Tuesday evening, June 18. There will be two prominent speakers and Miss Lillian Stuart of the Farm Bureau will give a talk, illustrated with lantern slides. We think this will be very interesting and hope there will be a large crowd.

Mrs. Abram Dumond of Hurley has been visiting her friends in this place for several days.

Frank Kellerhouse is spending a few days with his son in Grand George.

We are very sorry to hear that Miss Letta Allen, who has been very sick for several weeks, does not seem to gain.

The Children's Day exercises will be held in the church on Sunday evening, June 16, at 8 o'clock.

At the school meeting held on Tuesday evening of this week Hervey White was re-elected school trustee for the coming year.

Picking strawberries and fishing is the order of the day. Mrs. Iza Saxo takes the lead in fishing, having caught a pickerel which weighed 3½ pounds.

Mrs. Luther Dibble of Prattsville, N. Y., was a guest at the home of Wesley Mosher Sunday night.
